# Introduction

Astrology is as old as measured time. Although there are many different approaches to astrology, all astrologers appear united in the idea that there is a connection between the heavens and the Earth -- they share one common space. For centuries there has been a misunderstanding concerning the nature of astrology to the effect that the heavens somehow "influence" events here on Earth. This theory of celestial influence has penetrated into the modern world until today it is the main concept or idea of astrology supported by the public -- the lay astrological audience.

Professional astrologers do not hold with theories of celestial influence. Instead, the modern astrologer conceives of the heavens and Earth as united, interpenetrating, and sharing a common space and time. The great cosmic or celestial events happening around and beyond the Earth (eclipses, lineups, and so on) are not seen as CAUSING events to occur on Earth, but as great signatures of events ALSO happening here on Earth. In other words, there is no "cause" in the heavens followed by an "effect" here on Earth. Instead, both planetary and earthly events happen simultaneously and are mutually reflective. Neither is the cause of the other; both are the product of the moment, one acted out in the heavens above, the other here on the Earth below.

While astrologers don't feel that heavenly events are the cause of events here on Earth, they do feel that specific heavenly events are enacted here on the Earth too -- at the same moment. In other words, there is only one grand "play." The great drama enacted in the sky is also acted out (in exact detail) here on Earth in the same instant. Another way to say this is that the Earth is part of the cosmos and shares in that cosmic moment. Scientists have been discovering (for example) that sunspots, solar flares, and solar activity have a very definite (and almost immediate) effect here on Earth. Astrologers tend to feel that all major cosmic events such as eclipses are interactive; they represent an activity also taking place within us and our consciousness.

In summary, astrology is a study of heavenly cycles and cosmic events as they are reflected in our earthly environment and vice-versa -- a vast cosmic clock. Astrologers find the cosmic patterns revealed in the rhythmic motions of the planets a great help in shedding light on the seeming helter-skelter of everyday life. Astrologers may have their heads in the heavens, but only to better guide their feet here on Earth.

## Your StarType: Finger of God

---

James has a StarType with a real sense of striving and yearning to complete or resolve the situation - whatever is at hand. Over time, this need for resolution, this sense of immanent resolution, of always expecting something, of waiting could manifest almost as a waiting for the other shoe to drop, even a sense of premonition at best, and apprehension and even foreboding about what is to come (the future in general) at worst. The concept to grasp is this openness or expectancy for something to happen that will resolve or relieve this expectancy. Also: perhaps he has great curiosity, interest in exploring and getting into details.

## Your Rising Sign: Leo

---

First let's take a quick look at your ascendant, or rising sign. Astrologers want to know what zodiac sign is rising at birth, since this gives a picture of the way you appear or come across to others.

You wear your heart on your sleeve and always manage to come across as confident and sure of yourself (possibly egotistical). You are very free with your emotions, which nevertheless tend to stay under your control. You are warm-hearted and effusive.

# Planet Aspects

## The Lights: The Sun and Moon

At the time of our birth, the planets (through their configurations and relationships) tell us something about how things were when we were born. Each planet points to special qualities within us. Yet, of all the planets, the two most important planets to astrologers are the "lights," the Sun and the Moon. From where we stand here on Earth, the great shining Sun by day and the reflecting Moon at night are our constant companions. They have much to tell us as to where we have been and where we are headed.

### The Sun: Your Self and Future

From the Sun comes light, that which draws us into life. The Sun represents all the changes we have not yet taken, that part of us that we have not yet experienced but are headed toward. The Sun represents our identity, or self, in that it is toward these that we are moving and developing. Thus, it also represents that which we will become: older people, authorities -- those we look toward, or up to. Our essence, or future. Teachers, gurus, and older (more experienced) people are represented by the Sun. The Sun is "hot stuff," those further up the road of life experience.

The Sun

You are open-minded and democratic, enthusiastic, and have a definite sense of mission. Above all, you are a progressive and enjoy putting into practice that which is good for all. Your altruism could appear as coolness. At home with different cultures, peoples, and lands, you love to work with (and in) groups.

Sun in Aquarius

You communicate with consummate skill, and it is stimulating just being with you. Your high degree of mental concentration makes you an excellent student, able to excel in speaking, writing, and all types of communication skills. Your ambitions go hand-in-hand with communication and using the mind, and the two should never be far apart.

Sun Conjunct Mercury

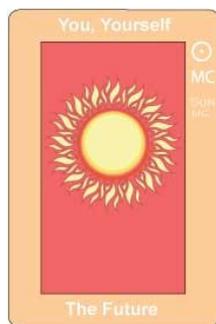

You push hard, but much energy is wasted because you tend to lack direction and planning. You often work against the way things are: authorities or the status quo. It may be difficult for you to coordinate your ambitions with your actual actions and feelings. You tend to hobble yourself emotionally. Your drive and passions put you at odds with authority figures time and again. This tendency towards clashes and emotional confrontation does exist, and at these times you can be your own worst enemy.

Sun Square Mars

Being successful in life is easy, for you have a built-in sense of how to approach and unravel even the most difficult problems. You have an instinct for justice and the law, and you always know how to approach a problem from just the right angle. This ability makes you a natural counselor or guide for others, in particular regarding vocational matters. Working with and helping older persons is also suggested.

Sun Trine Jupiter

Your preoccupation with your appearance, how you come across to others, and a social life in general may cut into both your job and your family life. A tendency toward surface and social graces can cost you plenty in career and home goals.

Sun Square Midheaven

## The Moon: The Support System

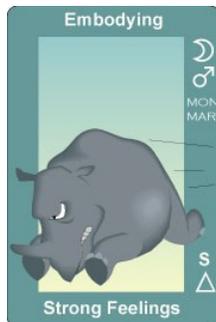

Here is information about the kind of environment we create around us, our support system. It is not only the surroundings that we set up today, but the Moon also represents our past, the particular history and social background out of which we grew. Aside from our social background, the Moon governs all of the old habits that we have grown beyond. We tend to look down on, or back on, our Moon. It represents those experiences out of which we have come, all those younger souls who are unconscious, or "sub" conscious to our own level. This is why it is said that the Moon is a mystery planet, for it is both our parent and our child: our parent in that out of it we were born, our child in that we can't but respond to others who are now living as we once did.

The Moon

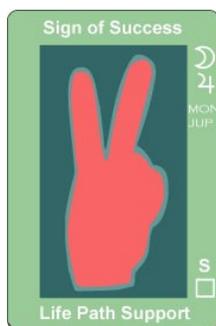

You are gregarious, even to the point of bringing out the performer in others. You somehow always manage to find a creative environment or the creative in any environment. You are great with kids and big on animals, sports, and the outdoors. You are an instant umbrella of warmth, friendship, and self-expression.

Moon in Leo

You find it easy to work with other people and tend to pour a lot of energy into those around you. Your home and surroundings reflect this. When it comes to teaching or coaching younger people, you are a natural, always able to motivate and inspire others. With your powerful spirit, you enjoy your strong emotions and have an active social life as well.

Moon Trine Mars

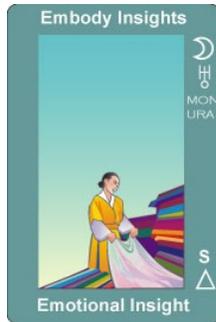

The path or career that you take may go against tradition and thus sometimes be a lonely one. Don't expect much support from those around you. There is also some danger you could overextend, making decisions that go against your own better feelings and instincts. Career choices could be at the expense of home and surroundings. Your approach to solving problems may get you in hot water with others, resulting in frequent debates, if not out-and-out arguments.

Moon Square Jupiter

Your sense of responsibility is so well developed that you always end up managing any situation you become involved in. You are disciplined, work hard, and are good at getting others to work with and for you. Perhaps a little too serious and frugal, you enjoy getting along on less. Essentials are what count. You like to keep to yourself and tend to avoid too much socializing. Others may prefer keeping some distance too.

Moon Trine Saturn

You are very original when it comes to home and surroundings -- the environment you build around you. This could also manifest in unusual ways of supporting yourself. Your mother may have been quite eccentric or your upbringing somehow different. When you have breakthroughs, they often come as insights into your immediate surroundings, home, and environment -- your support system in general. This could also manifest in your finding new and different ways to make a living. You may have new ideas about the past, history, and younger people, find it easy to create an unusual environment, and enjoy surrounding yourself with what is new and different.

Moon Trine Uranus

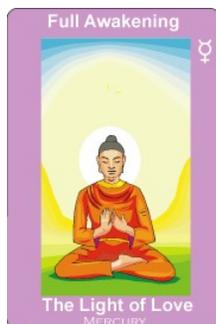

Your career always seems to get the support you need, and this is one area of life that runs smoothly. You seem to understand what the public wants, and mass marketing is a natural for you.

Moon Trine Midheaven

## The Inner Planets: Mercury and Venus

The planets Mercury and Venus have more to do with our internal and personal life than with life outside us. These inner planets are located between the orbit of the Earth and the Sun. We can look to qualities that are inside us. Venus indicates how we appreciate and measure our experience, how we value life. Mercury tells us something about how our mind works, how we think and communicate -- our intrinsic brightness.

### Mercury: The Mind and Communication

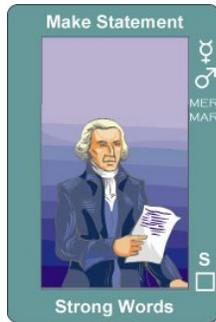

Mercury is the light in our eyes, the ever-changing consciousness within us that moves from idea to idea. Thus Mercury has always represented thoughts, ideas, and the mental process in general. It governs not only ideas, but communications, too. Communications -- by phone, letter, spoken, or however -- are ruled by Mercury. Also thoughts, connections, phone wires, and everything that connects and conveys -- even conversations.

Mercury

You are an impartial thinker, democratic to the point of being impersonal. Fascinated by the latest technology, you have very original ideas, an inventor. Always thinking of the world as a unity, you are idealistic and believe in putting into practice what is preached. You are group-conscious, community-oriented.

Mercury in Aquarius

You have a hair-trigger temper and it takes little to set it off. Your sharp-tongue is well-known and you use it before you have time to think, resulting in little mental and verbal explosions that you regret later. The sad part is that half the time you don't even mean what you may have said in anger. What is clear to those around you is that you communicate as much with your feelings as with words. People learn to look at what you do, rather than what you say. Your mind is very, very sharp. The less said the better.

Mercury Square Mars

## Venus: Values and Discrimination

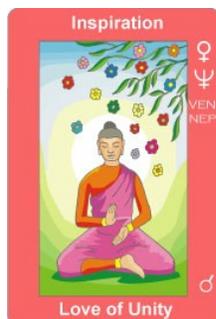

Venus rules our values and sense of appreciation. When we appraise or appreciate something, whether that be another person or a new car, this is Venus -- the sense of love and compassion we may feel. By the same token, this planet rules enjoyment too. Whether it be self-appreciation or just plain old decadent self-enjoyment by having a good time, this is Venus. When we go shopping or are on a spending spree, it is Venus that allows us to appreciate and value all the good things of life.

Venus

You are in love with what's practical, right down to the last detail. You appreciate tradition and ceremony and are a conservative in all things. You are loyal, seldom emotional, and always proper, even too serious. Cool cucumber. You like to be in control.

Venus in Capricorn

You place a high value on your dreams and ideals and don't consider them otherworldly or impossible. You experience the unity around you -- that which joins things together. There is a love of the sea and of whatever solves that which separates us. Mysticism, mythology, poetry, and music are natural. These are all known items to you. People who encounter you may sometimes feel deceived by your remarkable vision, which they enjoy when they are with you but find hard to maintain by themselves. They wish the world were like you say it is.

Venus Conjunction Neptune

You are very skilled at working with psychology, and the hidden recesses of the mind are, to you, no secret. You would make an excellent psychologist and teacher of this subject. These same skills make it possible for you to work with the public, in politics or wherever handling sensitive or "hot" issues is routine. You value change and transformation and have an almost reckless faith in the life process. You love to be touched at the most personal and vulnerable levels.

Venus Sextile Pluto

## The External Planets: Mars, Jupiter, Saturn

The major planets outside the Earth's orbit (external to us) are Mars, Jupiter, and Saturn. These are the planets of the outer world -- life as we find it outside ourselves. Mars tells us something about the drive and energy we have, Jupiter shows us how to best channel that energy, and Saturn decrees what sort of material or territory we will be passing through. Again: Saturn tells us about the territory we will be going through, Jupiter the way or path through it, and Mars what kind of push or drive we can count on to keep going.

### Mars: Drive and Emotions

Mars is the planet of emotion and inner motivation or drive. When we search for the meaning of something, life or whatever, it is Mars that urges us on, keeps us searching. Mars also drives us against things, too and sends us into war and combat. The urgency of Mars, the search for meaning, is identical to the need for union, yoga, and marriage. Mars is the planet of union, and marriage is the most common form of yoga. When we have questions about the opposite sex, we are looking at the planet Mars.

Mars

You have great staying power, a drive for security and stability, and can withstand almost anything. You are very dependable, somewhat emotional but stable. You have a natural need to build solid foundations. You are stubborn, but patient and slow to anger. Once angry, watch out!

Mars in Taurus

The word here is accomplishment. If there is a job, you can do it. A prodigious worker, you pour yourself into any task with absolute determination. You are responsible to the extreme and take on obligations as though you just can't get enough. You enjoy discipline, and limitations are seen as opportunities rather than as handicaps. You would make a good teacher of others in matters of organization, practical competence, and the like. You have a great desire and drive to be thorough and responsible down to the smallest details. You always know what is essential and what is not. You love the routine.

Mars Trine Saturn

You put a lot of thought and energy into being different, avoiding the commonplace with great determination. Your drive to innovate, invent, and find new ways to use things is both well coordinated and intense. You could be an excellent teacher and innovator in areas connected to electronics, computers, and communications. You may love to travel and are quite energetic, even athletic. You have a strong urge to be different, to do something different.

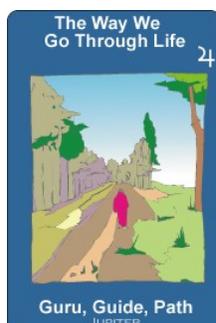

Mars Trine Uranus

You are very objective and practical when it comes to your feelings and emotions. You seem always to know what things mean and that they are pointing to. You can read feelings the way others read books.

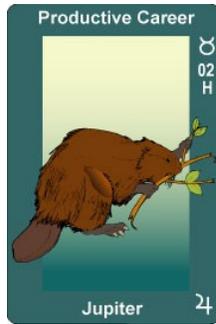

Mars Conjunct Midheaven

## Jupiter: Career and Life Path

Jupiter is the planet of success and simple survival, the way we have to solve the problems that confront us. Thus Jupiter has to do with the way in which we can be successful, our vocation. The Hindu word for Jupiter is Guru. Jupiter is the guru and guide, the way we go through life, our life path or vocation. Jupiter is the method each of us has for dealing with the laws of life, our Saturn, or limitations. Jupiter is the light or path. Jupiter provides us with our sense of direction, the path we are on, the way we handle life. It affects how we approach life's problems. It has always been an indicator of how successful we may be, our vocation.

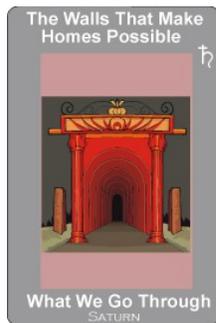

Jupiter

You have a green thumb in many areas, able to cultivate and nurture almost any subject. Making money is second nature, and you are able to field ideas and bring forth growth and success. A steady worker, you could also be a backer or money man. Accumulation.

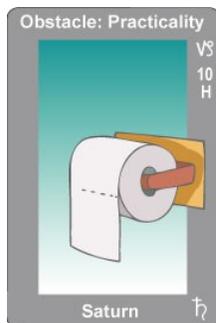

Jupiter in Taurus

## Saturn: Responsibilities

The process of finding out who we are (self-discovery) starts when we come to grips with whatever problems life presents to us and begin to get a handle on them. In other words, if we have not dealt with Saturn, or time (that is, if we don't have some control of time), there is little opportunity for other questions. Saturn rules the laws and limitations of this material world we all live in. Saturn indicates where we are bound to learn, the narrowness that makes our way felt, the walls that make homes possible. Saturn holds us together as much as apart. Saturn is said to be the great teacher, the planet that keeps us from getting carried away in one direction or another. Although it always seeks to limit and determine any thought, word, or action, it also defines and clarifies. Saturn is called the prince of the material world.

Saturn

Organizational problems. You have a tendency to avoid taking charge or responsibility and may need to accept a more disciplined and serious approach to life. Learn to enjoy hard work. Persevere. Learn how to manage. You may feel uncomfortable when in the public eye.

Saturn in Capricorn

You find it difficult to be spontaneous, to get away from routine and do something different. Others see in you a creature of routine. Travel may also be hard for you. It is not easy for you to change or to accept changes. When you do enact a change, it is always at the deepest or core level and affects everything else in your life. Once a change is made, it at once becomes a part of you, solid and immovable. Those near you may feel that you inhibit the proverbial "life of the party." Code, computer programming, and the like should interest you.

Saturn Conjunct Uranus

You may have difficulty letting go and being imaginative. Your no-nonsense, practical approach makes subjects like the unity of life, ideals, and dreamy stuff hard for you to take. However, your dreams and ideals are very important to you, and you methodically go about putting them into practice. You have little interest in the spirituality and psyches that are rampant today. You see through that and value the essential unity behind all religions. You could bring imagination and religious understanding to physical and scientific studies.

Saturn Conjunct Neptune

## The Outer Planets

In the previous sections, we have dealt with planets that we can see with our naked eyes. In general, these planets refer to life as we know and live it and are the so-called historical or classic planets. Beyond these are three planets that are not visible in the sky and which have cycles longer than the average human life span. Since they are beyond Saturn or time, astrologers call them the trans-personal or transcendental planets -- the planets beyond the physical. One of the ways astrologers learn something about our life beyond time (eternal life) is through these three outer planets: Uranus, Neptune, and Pluto. Here we find information on how we discover ourselves (Uranus), how we understand and accept these discoveries (Neptune), and, in time, how we depend and identify with them (Pluto).

### Uranus: Break-Thrus & Insights

Our responsibilities can tend to weigh us down, and we each have our particular ways of getting around (or breaking through) the mass of obstructions that tends to congeal around us. The planet that has to do with how we get beyond the difficulties and problems life presents us is Uranus. Here is the way insights come to us, how we discover or come to know and understand ourselves. It has to do with finding new uses for old things, and it rules inventions and sudden insights into our life -- everything that is unusual, eccentric, and out of the ordinary. It is the reverse of the status quo and is always unconventional and heretical. Uranus is, in many ways, the opposite, or undoing of Saturn.

Uranus

You are innovative in the political and business arena. You find new ways to manage and control things and people. Ever practical, you come up with new or alternate forms of management -- breakthroughs in top-level management and corporate styles. You bring new life to conservative traditions. Your emotions are very staid.

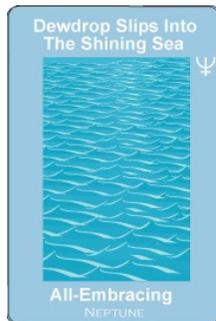

Uranus in Capricorn

You have real vision and insight into the unity that ties this world together. Your brilliant imagination and enchanting manner transport all who meet you beyond the mundane and into the extraordinary regions where you spend a lot of your time. You are a seer, in the true sense of the word, and possess a waking experience of that part of us that is mystical and dreamlike. You find new ways to bring people together, to unify situations. Unusual music.

Uranus Conjunct Neptune

## Neptune: Ideals & Imagination

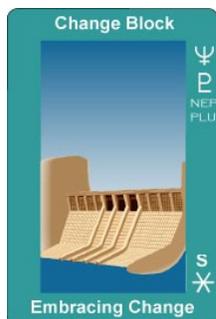

Even the most hard-nosed of us have moments of real understanding, when things are seen as linked together and one piece. We stop getting the idea in little flashes and just get the whole thing. It dawns on us. We each have our own way of letting go, having communion, and (as the poet wrote) letting "the dewdrop slip into the shining sea." These moments and this state of mind are, in fact, the source for all our imagination. There are many ways of seeing through the separateness in the world to the unity behind it.

Neptune

The practical is the ideal. Form follows function. You have a dream of being in control -- the puppet master. You are very interested in tradition and tend to be dignified and conservative. You believe in an orderly society led by benevolent monarchs -- those who can see what to do.

Neptune in Capricorn

You work with real imagination and understanding in areas of the mind that are the most personal or private -- depth psychology. You are like a midwife of the spirit, assisting at the birth of each individual going through a spiritual or re-birth process. You accept the natural process of birth, spiritual and physical, and have dedicated yourself to helping it along. You would make a great teacher in these areas.

Neptune Sextile Pluto

## Pluto: Inner Change and Growth

Pluto is the planet of profound change, starting deep within us and moving toward the surface. It often touches upon the most sensitive psychological areas inside us. Once touched, we have no choice but to change and grow. The most sensitive of experiences, the times of greatest vulnerability, are times of complete identification with an experience, a person, or a thing. We know in these instants that we are looking at our self, what we are. The most personal of experiences is one of complete identification with a person, moment, or idea. Perhaps this is only possible for most of us when we look into our child's eyes, and then only infrequently. Love is not the experience here, but total identification. This is very sensitive stuff. To touch upon this material is to go through deep inner change and transformation -- inner alchemy. Identification and experiencing that life is our own creation and that, in fact, you are I and I am you. This experience breaks us down and humbles. When we touch upon this experience, we cannot but die to what we have been thinking and doing up to now. It reduces us to our most sensitive because -- in a flash -- we see or remember that it all is us, our life.

Pluto

You tear through appearances in an effort to get beneath, behind, and at the heart or essence. You may find psychology, initiation, and mysticism, and the occult of great interest. Intense personal change and inner growth are lifelong habits.

Pluto in Scorpio

# Planets in Houses

The twelve houses of the horoscope, particularly when they are occupied by a planet, provide a clue to areas of special activity and use. Here is an analysis of house activity based on planet emphasis:

## First House: Appearance, Approach

---

The first house has to do with how we appear or the way we come across, thus our appearance and personality. This is the essential stuff that bubbles up in us spontaneously and that is obvious to others as our trademark or activity. It is what makes us each so personally different. This house rules our personal self and everything about us that draws a reaction from our surroundings or others.

Leo energy is expressive, emotive, and concerned with awareness and a sense of pride and ownership. Here is always a sense of home base or confidence from which the aggressive and outgoing Leo energy operates. Often very artistic, and always theatrical and expressive, this sign is good for creativity and the arts. Warm and big-hearted, this sign belongs to love of animals, sports, children.

Leo

## Second House: Possessions, Reactions

---

The second house is concerned with how we respond to or field whatever impulses or unique and personal qualities we manifest via our first house. This is how we hold or "have" things (possessions, material goods, money, and the like). The second house always refers to how we secure ourselves, the kind of response we get from life and those around us.

Leo energy is expressive, emotive, and concerned with awareness and a sense of pride and ownership. Here is always a sense of home base or confidence from which the aggressive and outgoing Leo energy operates. Often very artistic, and always theatrical and expressive, this sign is good for creativity and the arts. Warm and big-hearted, this sign belongs to love of animals, sports, children.

Leo

Good things (the support you need) always seem to come to you. Friends, co-workers, and plain old lucky circumstances offer encouragement and backing. You often get what you need, when you need it.

Moon in 2nd House

### Third House: Inquiries, Communications

---

The third house is concerned with explorations, investigations, and inquiry and research of all kinds. It also rules connections, communications, wires, tubes -- anything that we can get through with our body, mind, voice, letters, what-have-you. It is here that we explore and search for the limits of our life, whatever we are working with at the moment. A very mental house, concerned with finding, furthering, peering, and all manner of questioning. Traditionally rules short journeys, siblings.

Virgo energy is analytical and precise, always separating what is worthwhile and worth supporting from that which is outmoded and of no further use. A mental sign, where thinking and examining are in high focus. Also, a different kind of mother, here an endless caring and worrying (fussing) about just about everything. Always compassionate and responsive, Virgo energy is service-oriented above all, often thinking and caring more about what others are doing and thinking than for self.

Virgo

### Fourth House: Home, Family, Security

---

The fourth house is where we send down roots, find our limits, and generally secure ourselves. It is the end of any searching we might have done in the third house. Here we find or end our search, settle down, and manage to get in possession of the whole situation. This is our home and the base from which we can work, feel, and experience. This is the root of our experience, the core or thick of it.

Libra energy is always facilitating and responsive, assuming the appropriate reaction or response to any question or statement. What is sometimes seen as two-faced is only Libra's facility at responding to each in kind. This is certainly the social sign, par excellence. Impersonal and impartial, this sign doles out only what is demanded, never overdoing things.

Libra

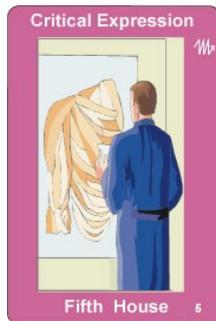

You may go through a lot of changes that affect your sense of security. Your home and family situation could be a focus for growth and real learning -- an area of great sensitivity and vulnerability.

Pluto in 4th House

## Fifth House: Expression, Creativity

---

The fifth house has to do with awareness, emotion (to move out), and expression (to press out). Here there is always a growing sense of self-confidence and even a pride of ownership, since we begin to recognize and own our experience. We know that we have had or are having an experience. All forms of expression and offspring are connected to this house -- children, animals, creative expression, and so on. A sense of direction and ownership takes hold at this point in our experience.

Scorpio is the most famous sign. Intense, passionate, and very personal, Scorpio rushes past superficialities and right to the heart of any matter. A loyal friend but a fanatic foe, this sign does well in politics and all areas where someone who dares is rewarded. Often associated with sexual energy, perhaps due to its tendency to strip away veneer, laying bare anything that is there.

Scorpio

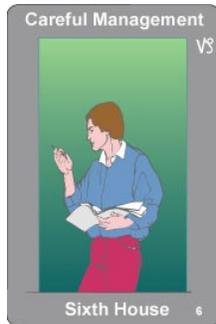

You are unconventional when it comes to self-expression and enjoyment. You find new and different ways to get it out -- possibly sports, the creative arts, and such. Always independent when it comes to emotions, you don't mind feeling a little different.

Uranus in 5th House

## Sixth House: Responsibility, Work, Health

---

The sixth house has to do with salvaging and preserving what is good and healthy in our experience. Here we separate the wheat from the chaff. We begin to care for ourselves and our experience and thus health, nutrition. The idea here is that we are able to analyze our experience and have thoughts about what is pure and what is not. The sixth house is an attempt to save the heart of an experience, one that already by that attempt is beginning to pass or not cohere.

Capricorn is the business energy of the zodiac, for it is the very opposite of the emotional Cancer. Given to clear-headedness and practical insight and vision, this sign always takes a distanced perspective, a cool appraisal. Logical and painstaking, Capricorns love hard work and earned results. Money and things in general are very important.

Capricorn

You are a good worker, always thinking and caring for things. You are naturally service-oriented and enjoy taking care of the needs of others. You are very discriminating and can sort out the good apples from the bad.

Sun in 6th House

You like to do things with care and enjoy being discriminating and exact. Your critical faculties are excellent, and you can always pick out what is worth saving and what is not. You appreciate a caring attitude and are service-oriented.

Venus in 6th House

Your critical faculties are severe, and it may be difficult for you to exercise them. Once you turn your analytical light on, you tend to be relentless in appraisal. This could make working with others difficult. Good for food, health, conservation.

Saturn in 6th House

You are very imaginative when it comes to your health, the food you eat, and how you take care of yourself. Quick to get the picture, you may find yourself helping others see the benefits that proper care (mental, physical, and such) can bring.

Neptune in 6th House

## Seventh House: Relationships, Other People

---

The seventh house is the house of partnerships, relationships, social life, and all that carries us beyond our personal self into an awareness of other people, community, and the like. This includes spiritual awakening and the discovery that we are more than just our personality. Here we begin to respond to our personal needs (and those of others) for the first time. We can see what is going on and are committed to it; thus, marriage and yoga, or union, is indicated in this house.

Aquarius, the sign of humanitarian goals and altruism. Always impartial and nonsectarian, Aquarian energy is communal (even global). The focus is on the goal, and the goal is always one that is for the many and not the few. Thus this sign is connected to far-seeing visions, world views, and group work of all kinds. This sign tends towards coolness, independence.

Aquarius

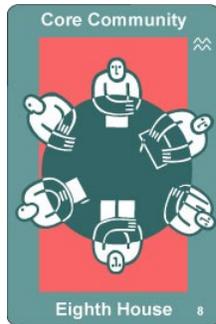

You love to communicate and discuss ideas with other people. Your ideas are always fair and impartial, especially when it comes to other people, the social scene. You are at your mental best when you are communicating with others.

Mercury in 7th House

## Eighth House: Business Savvy, Elimination

---

The eighth house, traditionally the house of death, is concerned with getting rid of excess parts of ourselves that we see we no longer need. Thus this house also covers initiation and any activities where we are transforming toward a more integral position, getting to the heart of things. The no-nonsense quality of the eighth house makes it good for business ventures since here we are stripping away the dross to reveal the truth or essence of the subject.

Aquarius, the sign of humanitarian goals and altruism. Always impartial and nonsectarian, Aquarian energy is communal (even global). The focus is on the goal, and the goal is always one that is for the many and not the few. Thus this sign is connected to far-seeing visions, world views, and group work of all kinds. This sign tends towards coolness, independence.

Aquarius

## Ninth House: Religions, Philosophy, Ideas

---

The ninth house covers long journeys and religion (the longest journey of all). Here is what remains of the purification that takes place in the eighth house -- the seed, or essence, of an entire cycle of experience. Religion comes from a Latin word that means to bind back, and thus refers to all things that last or endure, such as the truth. Essential ideas, philosophy, and all that is the very heart of things belong here.

Pisces energy runs deep and toward the psychological -- whatever is beneath the surface. This sign is understanding, patient, and long-suffering. Pisces tend to absorb all the little barbs and digs coming from outside. They always have their mind on an inner goal, something more important. They are very forgiving and accepting -- giving of themselves for the sake of more important issues.

Pisces

## Tenth House: Practical Vision, Vocation

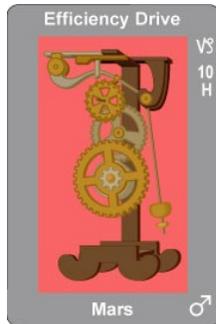

---

The 10th house is a house of practical vision and clairvoyance, for here we can see clearly what is. Reputation and career are often connected to this house, since the areas where we can see with greatest clarity are those we most often can put to use to make a living. In summary, this house is where we have real vision and can see to do and work. Planets transiting this house may provide moments of insight and clear-seeing as well.

Aries is the sign of the pioneer and leader. It is always impulsive, concentrated, and spontaneous. Act first and think about what you have done later. Rushing in where others fear to tread, the Aries energy is attention-getting. It always provokes a response from the surroundings, from others. There is something essential and instigative that starts or causes something else to happen -- a reaction or response.

Aries

You are driven to manage and control things. An urge to organize and be practical amounts to a minor obsession. Your career motivation is constant and relentless.

Mars in 10th House

It is natural for you to put your practical and managerial abilities to work. You can make a career out of your keen organizational skills and clear insight into how things work. Supervision and taking charge are your trademarks.

Jupiter in 10th House

## Eleventh House: Dreams & Visions, Community

---

The 11th house has to do with putting our visions and dreams to work. We have been on the mountain and had a vision (10th house). Here we take our vows never to forget what we have seen and to work hard to make these dreams into reality. Thus this house has always been connected with altruistic and humanitarian goals and trying to set them in motion. It is the house of friends and community, because when we are powered by a real insight or vision we share with all -- irrespective of differences.

Taurus manages to respond, possess, and "have" just about everything possible. This is a nurturing and fertile sign in that any seed or impulse is cradled, bringing forth growth and development. Taurus is the way we "have" things, how we possess and acquire things. There is something gentle, regular, steadfast, and determined about Taurus. Always accepting, mothering, providing a base for... a matrix or womb where growth takes place.

Taurus

## Twelfth House: Sacrifice, Psychology, Acceptance

---

The 12th house is about all that we go through in order to make our dreams into reality and manifest them in the world around us. It covers what we are willing to put up with, the sacrifices we will make in order to bring across what is really important. This is connected to prisons, institutions, betrayal, self-undoing, and the like, because it is here that we must choose to take some possible abuse for the sake of the message we are carrying, or blow it all away with a negative reaction.

Cancer is the mother of the zodiac, always making a home, protecting and providing for others. A sensitive sign where feelings and real experience count more than cold logic. It doesn't get any more physical and emotional than here. This sign has a sense of substance, a home base or foundation. Cancer energy is always limiting, bringing us down to Earth, grounding our every thought in experience, in substance.

# Elements

Elements, modalities, and house quadrants. These are all techniques used by astrologers to gain a general picture of how a person measures up. How do your planets and houses total up? Which do you have in abundance, and which do you lack, if any? Those with high totals show what we can or must do in life. These are qualities we have. However, most people are more interested by what they lack or want -- their lowest totals. They tend to study their "wants," imitate, and even pretend to have them. The old adage is: we become what we want (or lack), while we do what we can (or have to do). Here are your totals:

You're concerned with preserving the status quo and are stable and methodical in your ways of going on. You resist change and may have trouble getting started, but once on the move are indomitable. You mistrust that which is new or untried.

Have Earth

Your inner self-confidence may be lacking, and you could try to overcome this by defensive aggressiveness. You probably wish you had more of the self-assurance your fiery acquaintances have.

Want Fire

A solid supporter, always gravitating to the heart of things. You may have trouble getting moving, but once rolling, others better watch out. You have a stick-to-itiveness that always finds you in the thick of things, toughing it out.

Have Fixed

You may lack flexibility, managing a foot-in-the-mouth when you least need it. You could have trouble adapting to situations or to the demands of those around you. Perhaps it is not easy for you to communicate or smooth over things.

Want Mutable

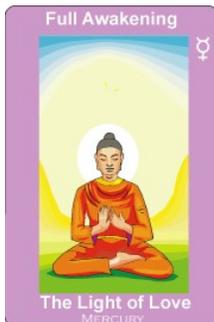

# Burn Rate

We all change, but the question is: At what rate? Some of us tear through change after change, one phase following another, year after year, while others move at a more serene pace. Or, one area of our lives may be hectic and forever changing, while other areas are quite tranquil. Why do some people seem to live lifetimes within lifetimes? Here is an analysis of your particular rate of change or "burn rate," including the particular areas of your life (planets) where you can expect continued change and growth. Areas where there is a very low index of change (indicating clear and easy use of the qualities involved) will also be pointed out. If you have sometimes wondered about the areas of your life where the candles burn at both ends, here are the details.

You have an average amount of change present in life, neither too much nor very little. Specific planets, either high or low, will be presented after this (if any exist).

A majority of your planets in the PRESENT suggests that right here and now is where you like to be and operate, tending neither to spend much time in procrastinating about the future or reminiscing about the past. You like to BE in the moment, of the day.

## Planets in High Focus

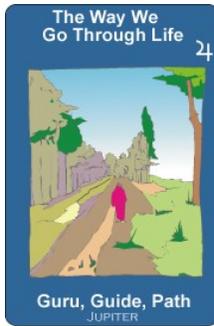

Your mind is exceptional in its clarity. All that is mental comes to you without struggle or labor -- ideas, thoughts, mental things of all kinds. The light in your eyes reveals the brightness of your mind to everyone who comes to know you.

Mercury

Emotional change and growth will be in high focus and amount to a constant in your life. A high burn rate here suggests that feelings, motivation, and sheer drive will be a trademark as well as a source of continual experience and learning. You find yourself in constant change in matters of feelings, and emotional scenes are part of your stock and trade. Experience in these realms will be extensive.

Mars

Questions of attitude, approaches to problem-solving, and the methods for handling authorities and the law are in high focus and are indicated by a high burn rate regarding your career and making your way through life. Perhaps you will have many jobs or be forever going through changes and adjustments that affect your career. It could be difficult finding lasting success or prosperity, and the path to it may be areas where you have real experience and particular expertise.

Jupiter

You have a high burn rate (go through a lot of changes) when it comes to sensitive, psychological areas of your life or times when you are feeling vulnerable. Direct confrontation tends to put you through a lot. You prefer diplomacy but find yourself in the midst of sticky situations on a regular basis.

# Challenges and Abilities

## Focus

---

These are areas of life where we show intense focus and activity. For better or worse, these qualities stand out and are obvious to all those who come to know us. They are very clear parts of our character.

You always can say just what you mean. Almost always right-on when it comes to questions of feelings, you take an active interest in psychology, different cultures, and history. You can find support from all sides when it comes to any sort of mental activity -- writing, speaking, and all forms of communication.

Sun Conjunct Mercury

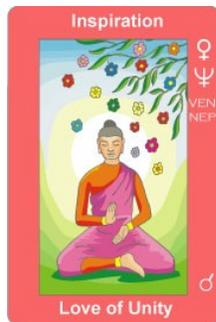

You find the past, tradition, and all that is historical very romantic, and the ideal world of yesteryear seems to beckon and call. You are most imaginative when it comes to anything spiritual, or psychological -- pertaining to the psyche. Others find you entrancing and always able to draw them into your world of images and dreams. You can inspire them with spiritual ideals. No one has any doubt that you are a high floater -- a full-blown dreamer, complete with built-in psychic abilities and probably given to visions.

Saturn Conjunct Neptune

You are very much involved with all that is traditional, but with this special twist: you are a revolutionary when it comes to the domestic scene and have very special insights into home, family, and surroundings. Others find you original (certainly very different) and perhaps unpredictable, especially when it comes to emotional reactions. Your approach to feelings, moods, and the whole psychological gambit is novel. You tend to show emotions suddenly and/or in unusual ways. You like unconventional friends and are a nonconformist yourself. Independent women may be important to you.

Mars Conjunct Midheaven

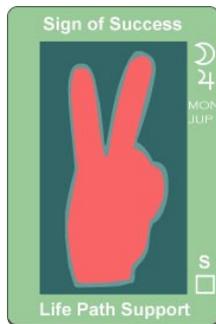

## Challenges

Life can be challenging, and things are not always easy. The major challenges in a natal chart are where we can expect increased activity and personal involvement -- ready or not. These critical areas of life can be difficult, and the resulting confusion and possible obscurity often makes it hard for us to see and act with normal clarity. Therefore, when it comes to the following factors you may wish to exercise caution and extra patience.

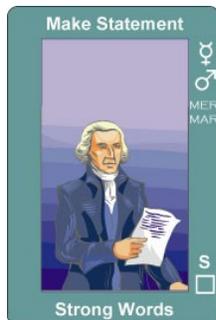

You may find yourself being too harsh or forceful when dealing with others, especially in group situations. The social fabric around you is something you tear through all too often in your drive to get things done. This can result in a distinct lack of support or assistance from others. Since you tend to ignore sentiment and the feelings of others, you are often left on your own. This non-cooperation makes it hard to really get ahead.

Sun Square Mars

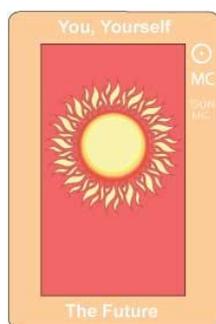

The path or career that you take may go against tradition and thus sometimes be a lonely one. Don't expect much support from those around you. There is also some danger you could overextend, making decisions that go against your own better feelings and instincts. Career choices could be at the expense of home and surroundings. Your approach to solving problems may get you in hot water with others, resulting in frequent debates, if not out-and-out arguments.

Moon Square Jupiter

Mercury Square Mars

You could find that you are neglecting either your home and family or your career (or both) due to your social and personal life. Relationships, working with other people, and making a good presentation. Home life is secondary.

## Talents and Abilities

Despite whatever problems we may have, there are areas of life where we have clear insight and real talent -- natural ability. When it comes to these matters, our judgment is sharp and we always manage to take charge. We have the knack. It may be as simple as the ability to work hard and accomplish things without something going wrong. An innate sense of the workings of these parts of life makes it easy for us to learn and accomplish things where they are concerned.

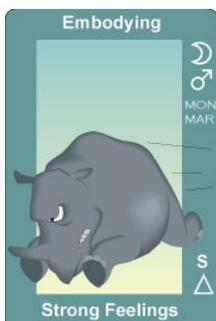

You are very original when it comes to home and surroundings -- the environment you build around you. This could also manifest in unusual ways of supporting yourself. Your mother may have been quite eccentric or your upbringing somehow different. # Life Landscapes

## Landscape: Major Life Periods

---

What follows amounts to a brief overview of the first thirty years or so of your life -- a road map of the years to come. Since childhood, adolescence, and early adult life are so crucial to each of us, an attempt has been made to describe these formative years. Based on the gradual movement of the planet Saturn, this is one of the most tested of all astrological techniques. It is used by almost every professional astrologer as part of any personal consultation. Provided that your time of birth is more or less accurate, you will find this information both accurate and informative. Here is a general life overview, followed by a close-up on your current changes -- what is happening right now. First the overview:

### Your Personal Background

You are a late bloomer, and your childhood should be an easy one. However, in your early teens (somewhere around the age of 14-15), you will take a distinct turn toward the more inner and subjective. This could mean a number of years when you feel insecure, very alone, and quite on your own. The years from 14 through 21 or 22 will be times of intense searching and self-examination during which you may not have much outwardly to show others as to who you are or what you can do. You could be perceived as hard to reach, and you may feel that no one recognizes who you are. Fear not, for this is not a long-term condition. In your early to middle twenties, you will have a real awakening (suddenly find yourself), will move outward, and will find something upon which you can build with confidence. Each year afterwards brings a gain in self-confidence and accomplishments. Your most successful years (from 30-40) will bring you material gain and outward recognition. You could reach a peak of fame or success around the 37th or 38th year.

### Your Current Situation

Now for a close-up of recent years: while landscape was quite general, the dates given in this close-up should be much more precise. Life is composed of sections of time, each devoted to one kind of activity or another. We go along for a while in one direction until something changes within (or outside) us and we head off in a new course. Some of our earlier activities dry up and new ones spring up in their place. What follows is an analysis of the time period in which you find yourself now. Don't look here for a day-to-day account of life but rather to get a picture of this stretch of time, "these years."

### On Upper Meridian: Jun 08, 2027

You are riding a high now in terms of taking advantage of the cycles in your life. This may well be a high-water mark; however, this is also the beginning of a series of years during which you should begin to consolidate and tie down the advances you have made in recent years. It may be best to begin to dig in and strengthen your current position rather than expand outward too much. You will find your mind beginning to turn away from the external (the material) and to be concerned with more inward and spiritual ideas. All of this will become clear over the next several years. This time marks a change of direction for you, away from the material and glitter, toward inner needs and security. You will find yourself more concerned with maintaining and strengthening your position, rather than pushing outward. In summary, a kind of high-water mark in the outward and social department. These years should be easy and filled with opportunities and friendships. Enjoy them. More demanding and inward years will be forthcoming a little further on down the road.

# Major Transits

You will go through a lot of change regarding personal values -- your ability to appreciate, measure, and appraise things. You may find yourself preoccupied with possessions and the way you feel about them. All matters of value, valuing, and ownership will be the source of continuous learning. Issues of compassion, love, and care are areas that will require learning.

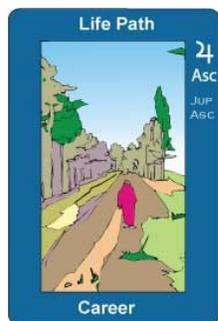

A great time, when good fortune and plain old luck surround you. It is easy for you to make correct decisions, find the right path, and move forward where career and success are concerned. Life's problems seem manageable and easy to solve.

Jupiter Conjunct Sun on Jan 06, 2021
