# Introduction

Astrology is as old as measured time. Although there are many different approaches to astrology, all astrologers appear united in the idea that there is a connection between the heavens and the Earth -- they share one common space. For centuries there has been a misunderstanding concerning the nature of astrology to the effect that the heavens somehow "influence" events here on Earth. This theory of celestial influence has penetrated into the modern world until today it is the main concept or idea of astrology supported by the public -- the lay astrological audience.

Professional astrologers do not hold with theories of celestial influence. Instead, the modern astrologer conceives of the heavens and Earth as united, interpenetrating, and sharing a common space and time. The great cosmic or celestial events happening around and beyond the Earth (eclipses, lineups, and so on) are not seen as CAUSING events to occur on Earth, but as great signatures of events ALSO happening here on Earth. In other words, there is no "cause" in the heavens followed by an "effect" here on Earth. Instead, both planetary and earthly events happen simultaneously and are mutually reflective. Neither is the cause of the other; both are the product of the moment, one acted out in the heavens above, the other here on the Earth below.

While astrologers don't feel that heavenly events are the cause of events here on Earth, they do feel that specific heavenly events are enacted here on the Earth too -- at the same moment. In other words, there is only one grand "play." The great drama enacted in the sky is also acted out (in exact detail) here on Earth in the same instant. Another way to say this is that the Earth is part of the cosmos and shares in that cosmic moment. Scientists have been discovering (for example) that sunspots, solar flares, and solar activity have a very definite (and almost immediate) effect here on Earth. Astrologers tend to feel that all major cosmic events such as eclipses are interactive; they represent an activity also taking place within us and our consciousness.

In summary, astrology is a study of heavenly cycles and cosmic events as they are reflected in our earthly environment and vice-versa -- a vast cosmic clock. Astrologers find the cosmic patterns revealed in the rhythmic motions of the planets a great help in shedding light on the seeming helter-skelter of everyday life. Astrologers may have their heads in the heavens, but only to better guide their feet here on Earth.

## Your StarType: The Charismatic

---

Jenifer likes attention and probably demands (and usually gets) lots of it. Whatever is going on, she tends to gravitate to the center of any group, where the action is at - the life of the party. This is because at heart she is warm and charismatic, most definitely a touchy-feeling sort of person. People like her and like to be around her. Jenifer is probably in-demand for dinner dates and parties. Why? Because she is fun! Sometimes Jenifer feels like she has to protect her privacy and does not like being hemmed in and pinned down by claustrophobic situations.

## Your Rising Sign: Libra

---

First let's take a quick look at your ascendant, or rising sign. Astrologers want to know what zodiac sign is rising at birth, since this gives a picture of the way you appear or come across to others.

You are all things to all people, always responding in a way to please and flatter -- a social being. You are so diplomatic and polite that one wonders if you have a viewpoint of your own. You have a natural ability to reflect and mirror others.

# Planet Aspects

## The Lights: The Sun and Moon

At the time of our birth, the planets (through their configurations and relationships) tell us something about how things were when we were born. Each planet points to special qualities within us. Yet, of all the planets, the two most important planets to astrologers are the "lights," the Sun and the Moon. From where we stand here on Earth, the great shining Sun by day and the reflecting Moon at night are our constant companions. They have much to tell us as to where we have been and where we are headed.

### The Sun: Your Self and Future

From the Sun comes light, that which draws us into life. The Sun represents all the changes we have not yet taken, that part of us that we have not yet experienced but are headed toward. The Sun represents our identity, or self, in that it is toward these that we are moving and developing. Thus, it also represents that which we will become: older people, authorities -- those we look toward, or up to. Our essence, or future. Teachers, gurus, and older (more experienced) people are represented by the Sun. The Sun is "hot stuff," those further up the road of life experience.

The Sun

You are open-minded and democratic, enthusiastic, and have a definite sense of mission. Above all, you are a progressive and enjoy putting into practice that which is good for all. Your altruism could appear as coolness. At home with different cultures, peoples, and lands, you love to work with (and in) groups.

Sun in Aquarius

You push hard, but much energy is wasted because you tend to lack direction and planning. You often work against the way things are: authorities or the status quo. It may be difficult for you to coordinate your ambitions with your actual actions and feelings. You tend to hobble yourself emotionally. Your drive and passions put you at odds with authority figures time and again. This tendency towards clashes and emotional confrontation does exist, and at these times you can be your own worst enemy.

Sun Square Mars

Responsibilities are easy for you, and you tend to pile on tasks, one after another. You work very hard, with a gritty resolve, and can accomplish much. It takes a lot to overload your willingness to take charge and help out. Organizational skills are good, and a career in one of the physical sciences is quite possible. You find it easy to work with those in authority or those who are more experienced than yourself.

Sun Sextile Saturn

You find yourself fighting to realize your ambitions amidst a sea of fuzzy dreams. A fear of letting go (and trusting the more mystical side of yourself) keeps you hard at it. You can't seem to let yourself dream a little, don't trust your own idealizations, and struggle between your sense of ideals and your more realistic ambitions. Your practical concerns with getting ahead and fulfilling your ambitions tend to ignore your more deep-rooted ideals and dreams. You may not trust those in authority.

Sun Square Neptune

## The Moon: The Support System

Here is information about the kind of environment we create around us, our support system. It is not only the surroundings that we set up today, but the Moon also represents our past, the particular history and social background out of which we grew. Aside from our social background, the Moon governs all of the old habits that we have grown beyond. We tend to look down on, or back on, our Moon. It represents those experiences out of which we have come, all those younger souls who are unconscious, or "sub" conscious to our own level. This is why it is said that the Moon is a mystery planet, for it is both our parent and our child: our parent in that out of it we were born, our child in that we can't but respond to others who are now living as we once did.

The Moon

You are even happy in austere settings, and enjoy getting back to the basics. Religion, truth, and the world of philosophy and ideas are of interest. Your love of simplicity is good for politics too. It brings out the truth and a sense of honesty in a group. You are freedom-loving, independent, and at times, even a trifle remote. You are not bound by relationships and are thus not much of a domestic.

Moon in Sagittarius

You are very fortunate in being able to grow and progress throughout your life without major difficulties. You can always find the resources you require at hand plus the necessary instruction in how to use them. An inner vision, coupled with the ability to see the "Big" picture, often finds you working as a go-between with others. You could even have a special gift for spanning the generation gap, bringing older and younger spirits together. A love of animals, children, older people, and the needy and downtrodden in general, is a lifelong trait.

Moon Sextile Sun

Your sense of responsibility is so well developed that you always end up managing any situation you become involved in. You are disciplined, work hard, and are good at getting others to work with and for you. Perhaps a little too serious and frugal, you enjoy getting along on less. Essentials are what count. You like to keep to yourself and tend to avoid too much socializing. Others may prefer keeping some distance too.

Moon Trine Saturn

You keep your feelings and emotions to yourself and resent any attempt to analyze or probe them. Your home and surroundings are tidy and air-tight, as well. However, you don't mind probing and dissecting the lives of others. This can't help but produce a strain in your relations with others, and you probably get very little support for your detective work. These two parts of you which seldom meet cause constant tension, resulting in periodic explosions.

Moon Square Pluto

## The Inner Planets: Mercury and Venus

The planets Mercury and Venus have more to do with our internal and personal life than with life outside us. These inner planets are located between the orbit of the Earth and the Sun. We can look to qualities that are inside us. Venus indicates how we appreciate and measure our experience, how we value life. Mercury tells us something about how our mind works, how we think and communicate -- our intrinsic brightness.

### Mercury: The Mind and Communication

Mercury is the light in our eyes, the ever-changing consciousness within us that moves from idea to idea. Thus Mercury has always represented thoughts, ideas, and the mental process in general. It governs not only ideas, but communications, too. Communications -- by phone, letter, spoken, or however -- are ruled by Mercury. Also thoughts, connections, phone wires, and everything that connects and conveys -- even conversations.

Mercury

You are an impartial thinker, democratic to the point of being impersonal. Fascinated by the latest technology, you have very original ideas, an inventor. Always thinking of the world as a unity, you are idealistic and believe in putting into practice what is preached. You are group-conscious, community-oriented.

Mercury in Aquarius

You enjoy working with your mind and can usually find a solution to even the worst problems. You like to solve puzzles and dilemmas, yours or others'. Your skills in this regard make you expert at counseling and guiding others. Fine verbal skills and a natural sense of justice makes legal work a distinct possibility. Working with laws, natural or man-made, amounts to a real talent. You also have a great interest in ideas, the more true and lasting the better. Religious concepts will be a lifelong concern for you.

Mercury Trine Jupiter

You enjoy working with your mind, and your sharp perceptions make finding new solutions easy. You always bring an unexpected twist or insight to anything you set your mind to. You are able to teach or help others to be more original when it comes to the words or thoughts they use. You can use the mind in original ways and probably have excellent eye-hand coordination. Your laser-like mind makes conversations fast-paced and illuminating. A ready wit.

Mercury Trine Uranus

You are expert at working with words that communicate mystical and mythological ideas. You are at home in these realms and can always manage to bring other-worldly ideas into the practical realms. You would make an excellent teacher of philosophy or religion, for you can't help but communicate these subjects and enchant all who come to know you. Your understanding of the unity behind appearances, along with the ability to put these thoughts into words, is a rare and valuable gift. You would make a good director, for you like working with mental images.

Mercury Sextile Neptune

When it comes to mental work, you have a perfect gift for research and investigation. You enjoy examining and analyzing, in particular when it comes to psychological and sensitive areas of the mind. Your ability to sift through the dross and come up with what is essential every time is exceptional. You like to discuss and communicate, again always at a psychological and very personal level. Others may find you just too intense.

Mercury Trine Pluto

Your mind runs to domestic issues; home and family are always on your mind. This trait could work against your career interests, especially if your job requires managerial and organizational skills. Perhaps a home business would be good.

Mercury Opposite Midheaven

## Venus: Values and Discrimination

Venus rules our values and sense of appreciation. When we appraise or appreciate something, whether that be another person or a new car, this is Venus -- the sense of love and compassion we may feel. By the same token, this planet rules enjoyment too. Whether it be self-appreciation or just plain old decadent self-enjoyment by having a good time, this is Venus. When we go shopping or are on a spending spree, it is Venus that allows us to appreciate and value all the good things of life.

Venus

You exhibit great appreciation, intense love, and always wear your heart on your sleeve -- always! Not too sensitive with others, you tend to be rough and ready and can sometimes demand a lot of attention. Shy flowers, stand back! You are independent and single-minded, demonstrative and very loving.

Venus in Aries

You may fail to appreciate the correct decision or solution when you see it. This can mean that your judgment in career and vocational matters is at times not dependable. You may be well advised to accept the counsel of others concerning decisions relating to your career or life path. A tendency to go too far, expand too fast, and overindulge needs to be noted, and some adjustment made. Your appetites may carry you away from what you know to be the best path.

Venus Opposite Jupiter

You like your life regular and find little value in new trends and inventions for their own sake. The same goes for nonconformists and all the other weirdo's that crowd the world. You oppose them, and often deliver your message in person. Arguments on this theme are common. Any sort of change threatens you more than most, and you do all you can to ignore it. Every so often, like those earthquake faults, all hell breaks loose and some of this catches up with you.

Venus Opposite Uranus

## The External Planets: Mars, Jupiter, Saturn

The major planets outside the Earth's orbit (external to us) are Mars, Jupiter, and Saturn. These are the planets of the outer world -- life as we find it outside ourselves. Mars tells us something about the drive and energy we have, Jupiter shows us how to best channel that energy, and Saturn decrees what sort of material or territory we will be passing through. Again: Saturn tells us about the territory we will be going through, Jupiter the way or path through it, and Mars what kind of push or drive we can count on to keep going.

### Mars: Drive and Emotions

Mars is the planet of emotion and inner motivation or drive. When we search for the meaning of something, life or whatever, it is Mars that urges us on, keeps us searching. Mars also drives us against things, too and sends us into war and combat. The urgency of Mars, the search for meaning, is identical to the need for union, yoga, and marriage. Mars is the planet of union, and marriage is the most common form of yoga. When we have questions about the opposite sex, we are looking at the planet Mars.

Mars

You possess a powerful, persistent drive and are a hard, steady worker. Others may find you deep, with a sense of mission and mystery. You are willing to do work others would not go near, quietly bending things to your will, having it your own way. You have strong sexual energy, too, and enjoy getting down to the nitty-gritty.

Mars in Scorpio

A desire for unity and atonement. You have an urge to put out to sea and to somehow get past what separates and into that which unites or ties things together. Your drive to make dreams real keeps you working for your vision. The ideal should be made real. You put your whole heart into making your dreams and ideals a reality.

Mars Conjunct Neptune

You enjoy working with whatever is psychological -- the hidden, vulnerable, sensitive areas of the mind and self. You can handle material that is sensitive or taboo without batting an eye. This interest in all that is psychological makes you an excellent teacher in the field. You have a natural grasp for the political, for handling the public, and you know how to get your way. Your drive in these areas amounts to a passion, and those around you may feel that you are often too intense. Power struggles are somewhat routine for you.

Mars Sextile Pluto

You put forth a lot of effort, in particular regarding your career. Your drive and ambitions work well with whatever management skills and practical ability you have, producing a harmonious work environment.

Mars Trine Midheaven

## Jupiter: Career and Life Path

Jupiter is the planet of success and simple survival, the way we have to solve the problems that confront us. Thus Jupiter has to do with the way in which we can be successful, our vocation. The Hindu word for Jupiter is Guru. Jupiter is the guru and guide, the way we go through life, our life path or vocation. Jupiter is the method each of us has for dealing with the laws of life, our Saturn, or limitations. Jupiter is the light or path. Jupiter provides us with our sense of direction, the path we are on, the way we handle life. It affects how we approach life's problems. It has always been an indicator of how successful we may be, our vocation.

Jupiter

You could enjoy a career working with people as a go-between, negotiator, or mediator, for you can be all things to all people -- the mirror. You are not interested in what runs deep, but prefer to control what goes on at the surface. That's enough for you. Open and not self-centered, you are a natural diplomat.

Jupiter in Libra

Unusual vocations. Your career or life path, the way you make your living or get through life, will be very different, perhaps unique. You always take the road less traveled by and, skirting the crowd and the commonplace, head for parts unknown. Your approach to any problem is always original and you could invent things or discover new places or develop new ways of doing things. Communications, computers, and the whole electronic revolution are a perfect career choice for you.

Jupiter Conjunct Uranus

## Saturn: Responsibilities

The process of finding out who we are (self-discovery) starts when we come to grips with whatever problems life presents to us and begin to get a handle on them. In other words, if we have not dealt with Saturn, or time (that is, if we don't have some control of time), there is little opportunity for other questions. Saturn rules the laws and limitations of this material world we all live in. Saturn indicates where we are bound to learn, the narrowness that makes our way felt, the walls that make homes possible. Saturn holds us together as much as apart. Saturn is said to be the great teacher, the planet that keeps us from getting carried away in one direction or another. Although it always seeks to limit and determine any thought, word, or action, it also defines and clarifies. Saturn is called the prince of the material world.

Saturn

You have a need to be bold, rash, and even a little foolish -- to dare. You may have to work on being alone, on being more aggressive, challenging, and willful. You could have difficulty with leadership, self-assertion, and outgoingness, in general. A need to develop impulsiveness, the pioneer spirit, and pride in self.

Saturn in Aries

You are very painstaking and deliberate when it comes to partnerships, lovers -- relationships of all kinds. You tend toward long-lasting friendships and are very loyal. sometimes too staid.

Saturn Square Midheaven

## The Outer Planets

In the previous sections, we have dealt with planets that we can see with our naked eyes. In general, these planets refer to life as we know and live it and are the so-called historical or classic planets. Beyond these are three planets that are not visible in the sky and which have cycles longer than the average human life span. Since they are beyond Saturn or time, astrologers call them the trans-personal or transcendental planets -- the planets beyond the physical. One of the ways astrologers learn something about our life beyond time (eternal life) is through these three outer planets: Uranus, Neptune, and Pluto. Here we find information on how we discover ourselves (Uranus), how we understand and accept these discoveries (Neptune), and, in time, how we depend and identify with them (Pluto).

### Uranus: Break-Thrus & Insights

Our responsibilities can tend to weigh us down, and we each have our particular ways of getting around (or breaking through) the mass of obstructions that tends to congeal around us. The planet that has to do with how we get beyond the difficulties and problems life presents us is Uranus. Here is the way insights come to us, how we discover or come to know and understand ourselves. It has to do with finding new uses for old things, and it rules inventions and sudden insights into our life -- everything that is unusual, eccentric, and out of the ordinary. It is the reverse of the status quo and is always unconventional and heretical. Uranus is, in many ways, the opposite, or undoing of Saturn.

Uranus

You can find new ways to relate and may be innovative in marriage and social conventions. Very tolerant and accepting of differences, you have good insights into all social values. Independent. You like to facilitate, compromise, and otherwise show your breadth of scope -- like a coat of many colors.

Uranus in Libra

Your insight and vision into what unites people and into the dreams and mystical regions of our mind is profound. You have an enchanting way of working and communicating with others in these matters and with music and the arts. New paths to world or personal unity are a major interest, and you have a very practical sense of how to make your dreams real.

Uranus Sextile Neptune

## Neptune: Ideals & Imagination

Even the most hard-nosed of us have moments of real understanding, when things are seen as linked together and one piece. We stop getting the idea in little flashes and just get the whole thing. It dawns on us. We each have our own way of letting go, having communion, and (as the poet wrote) letting "the dewdrop slip into the shining sea." These moments and this state of mind are, in fact, the source for all our imagination. There are many ways of seeing through the separateness in the world to the unity behind it.

Neptune

Unafraid of the "dark" side of life, you are interested in esoteric religion, everything mystical or occult, and so on. Sexuality and physical desires are encouraged and seen as spiritual. Money, power, and things of this world are O.K. too. The physical is ideal. Possessions.

Neptune in Scorpio

You work with real imagination and understanding in areas of the mind that are the most personal or private -- depth psychology. You are like a midwife of the spirit, assisting at the birth of each individual going through a spiritual or re-birth process. You accept the natural process of birth, spiritual and physical, and have dedicated yourself to helping it along. You would make a great teacher in these areas.

Neptune Sextile Pluto

You prefer a career that accents your own devotion to the dreams and ideals you stand for. Working with groups in a spirit of cooperation and communion is a natural.

Neptune Trine Midheaven

## Pluto: Inner Change and Growth

Pluto is the planet of profound change, starting deep within us and moving toward the surface. It often touches upon the most sensitive psychological areas inside us. Once touched, we have no choice but to change and grow. The most sensitive of experiences, the times of greatest vulnerability, are times of complete identification with an experience, a person, or a thing. We know in these instants that we are looking at our self, what we are. The most personal of experiences is one of complete identification with a person, moment, or idea. Perhaps this is only possible for most of us when we look into our child's eyes, and then only infrequently. Love is not the experience here, but total identification. This is very sensitive stuff. To touch upon this material is to go through deep inner change and transformation -- inner alchemy. Identification and experiencing that life is our own creation and that, in fact, you are I and I am you. This experience breaks us down and humbles. When we touch upon this experience, we cannot but die to what we have been thinking and doing up to now. It reduces us to our most sensitive because -- in a flash -- we see or remember that it all is us, our life.

Pluto

You tend to be radical when it comes to self-analysis, which means health care, food, physical well-being, and so on. Serving and caring for yourself and others are primary sources of inner growth and changes. You are sensitive to criticism.

Pluto in Virgo

The supportive help of women or a girl can be an important factor that will affect business or reputation and increase your sense of security. You are a fine psychologist, researcher, or detective and are good at dealing with joint or others' finances.

Pluto Sextile Midheaven

# Planets in Houses

The twelve houses of the horoscope, particularly when they are occupied by a planet, provide a clue to areas of special activity and use. Here is an analysis of house activity based on planet emphasis:

## First House: Appearance, Approach

---

The first house has to do with how we appear or the way we come across, thus our appearance and personality. This is the essential stuff that bubbles up in us spontaneously and that is obvious to others as our trademark or activity. It is what makes us each so personally different. This house rules our personal self and everything about us that draws a reaction from our surroundings or others.

Libra energy is always facilitating and responsive, assuming the appropriate reaction or response to any question or statement. What is sometimes seen as two-faced is only Libra's facility at responding to each in kind. This is certainly the social sign, par excellence. Impersonal and impartial, this sign doles out only what is demanded, never overdoing things.

Libra

## Second House: Possessions, Reactions

---

The second house is concerned with how we respond to or field whatever impulses or unique and personal qualities we manifest via our first house. This is how we hold or "have" things (possessions, material goods, money, and the like). The second house always refers to how we secure ourselves, the kind of response we get from life and those around us.

Scorpio is the most famous sign. Intense, passionate, and very personal, Scorpio rushes past superficialities and right to the heart of any matter. A loyal friend but a fanatic foe, this sign does well in politics and all areas where someone who dares is rewarded. Often associated with sexual energy, perhaps due to its tendency to strip away veneer, laying bare anything that is there.

Scorpio

Good things (the support you need) always seem to come to you. Friends, co-workers, and plain old lucky circumstances offer encouragement and backing. You often get what you need, when you need it.

Moon in 2nd House

You are motivated when it comes to possessions and material things. An urge to respond, own, and build upon whatever comes your way makes you a natural when it comes to productivity and the business world.

Mars in 2nd House

You are very idealistic when it comes to possessions, finance, and how you choose to make your living. Your response to what life offers you is always very elevated, although not always practical. This could lead to some disappointments.

Neptune in 2nd House

### Third House: Inquiries, Communications

The third house is concerned with explorations, investigations, and inquiry and research of all kinds. It also rules connections, communications, wires, tubes -- anything that we can get through with our body, mind, voice, letters, what-have-you. It is here that we explore and search for the limits of our life, whatever we are working with at the moment. A very mental house, concerned with finding, furthering, peering, and all manner of questioning. Traditionally rules short journeys, siblings.

Sagittarius is nothing if not direct, candid, and to the point. Sometimes harsh, this energy always is concerned with the absolute truth of the subject at hand. Associated with philosophy, religion, and all things that last, Sagittarius energy is always welcome in politics as well as social and community endeavors, where its basic fairness and evenhandedness is helpful.

Sagittarius

## Fourth House: Home, Family, Security

---

The fourth house is where we send down roots, find our limits, and generally secure ourselves. It is the end of any searching we might have done in the third house. Here we find or end our search, settle down, and manage to get in possession of the whole situation. This is our home and the base from which we can work, feel, and experience. This is the root of our experience, the core or thick of it.

Capricorn is the business energy of the zodiac, for it is the very opposite of the emotional Cancer. Given to clear-headedness and practical insight and vision, this sign always takes a distanced perspective, a cool appraisal. Logical and painstaking, Capricorns love hard work and earned results. Money and things in general are very important.

Capricorn

Home, family, and security are important to you. You love to send out roots and build a home base. Sensitive and somewhat private, you tend to be a very feeling (and sometimes vulnerable) person. You sense things and have a good feel for business.

Sun in 4th House

Your mind tends to settle on issues of security -- home, family, and such. Your thoughts have great substance and feeling. An interest in history, the past, and nostalgia may be lifelong.

Mercury in 4th House

## Fifth House: Expression, Creativity

---

The fifth house has to do with awareness, emotion (to move out), and expression (to press out). Here there is always a growing sense of self-confidence and even a pride of ownership, since we begin to recognize and own our experience. We know that we have had or are having an experience. All forms of expression and offspring are connected to this house -- children, animals, creative expression, and so on. A sense of direction and ownership takes hold at this point in our experience.

Aquarius, the sign of humanitarian goals and altruism. Always impartial and nonsectarian, Aquarian energy is communal (even global). The focus is on the goal, and the goal is always one that is for the many and not the few. Thus this sign is connected to far-seeing visions, world views, and group work of all kinds. This sign tends towards coolness, independence.

Aquarius

## Sixth House: Responsibility, Work, Health

The sixth house has to do with salvaging and preserving what is good and healthy in our experience. Here we separate the wheat from the chaff. We begin to care for ourselves and our experience and thus health, nutrition. The idea here is that we are able to analyze our experience and have thoughts about what is pure and what is not. The sixth house is an attempt to save the heart of an experience, one that already by that attempt is beginning to pass or not cohere.

Pisces energy runs deep and toward the psychological -- whatever is beneath the surface. This sign is understanding, patient, and long-suffering. Pisces tend to absorb all the little barbs and digs coming from outside. They always have their mind on an inner goal, something more important. They are very forgiving and accepting -- giving of themselves for the sake of more important issues.

Pisces

You like to do things with care and enjoy being discriminating and exact. Your critical faculties are excellent, and you can always pick out what is worth saving and what is not. You appreciate a caring attitude and are service-oriented.

Venus in 6th House

Your critical faculties are severe, and it may be difficult for you to exercise them. Once you turn your analytical light on, you tend to be relentless in appraisal. This could make working with others difficult. Good for food, health, conservation.

Saturn in 6th House

## Seventh House: Relationships, Other People

---

The seventh house is the house of partnerships, relationships, social life, and all that carries us beyond our personal self into an awareness of other people, community, and the like. This includes spiritual awakening and the discovery that we are more than just our personality. Here we begin to respond to our personal needs (and those of others) for the first time. We can see what is going on and are committed to it; thus, marriage and yoga, or union, is indicated in this house.

Aries is the sign of the pioneer and leader. It is always impulsive, concentrated, and spontaneous. Act first and think about what you have done later. Rushing in where others fear to tread, the Aries energy is attention-getting. It always provokes a response from the surroundings, from others. There is something essential and instigative that starts or causes something else to happen -- a reaction or response.

Aries

## Eighth House: Business Savvy, Elimination

---

The eighth house, traditionally the house of death, is concerned with getting rid of excess parts of ourselves that we see we no longer need. Thus this house also covers initiation and any activities where we are transforming toward a more integral position, getting to the heart of things. The no-nonsense quality of the eighth house makes it good for business ventures since here we are stripping away the dross to reveal the truth or essence of the subject.

Taurus manages to respond, possess, and "have" just about everything possible. This is a nurturing and fertile sign in that any seed or impulse is cradled, bringing forth growth and development. Taurus is the way we "have" things, how we possess and acquire things. There is something gentle, regular, steadfast, and determined about Taurus. Always accepting, mothering, providing a base for... a matrix or womb where growth takes place.

Taurus

## Ninth House: Religions, Philosophy, Ideas

---

The ninth house covers long journeys and religion (the longest journey of all). Here is what remains of the purification that takes place in the eighth house -- the seed, or essence, of an entire cycle of experience. Religion comes from a Latin word that means to bind back, and thus refers to all things that last or endure, such as the truth. Essential ideas, philosophy, and all that is the very heart of things belong here.

Gemini is concerned with connections and communication of all kinds -- letters, wires, telephones, voice, thoughts, writing, and mental processes in general. Gemini is the gadfly, the communicator, the gossip of the zodiac. Searching conversations, scientific inquiry, research, and so on belong here. Gemini energy is unattached, independent, and inquisitive.

Gemini

## Tenth House: Practical Vision, Vocation

---

The 10th house is a house of practical vision and clairvoyance, for here we can see clearly what is. Reputation and career are often connected to this house, since the areas where we can see with greatest clarity are those we most often can put to use to make a living. In summary, this house is where we have real vision and can see to do and work. Planets transiting this house may provide moments of insight and clear-seeing as well.

Cancer is the mother of the zodiac, always making a home, protecting and providing for others. A sensitive sign where feelings and real experience count more than cold logic. It doesn't get any more physical and emotional than here. This sign has a sense of substance, a home base or foundation. Cancer energy is always limiting, bringing us down to Earth, grounding our every thought in experience, in substance.

Cancer

## Eleventh House: Dreams & Visions, Community

---

The 11th house has to do with putting our visions and dreams to work. We have been on the mountain and had a vision (10th house). Here we take our vows never to forget what we have seen and to work hard to make these dreams into reality. Thus this house has always been connected with altruistic and humanitarian goals and trying to set them in motion. It is the house of friends and community, because when we are powered by a real insight or vision we share with all -- irrespective of differences.

Leo energy is expressive, emotive, and concerned with awareness and a sense of pride and ownership. Here is always a sense of home base or confidence from which the aggressive and outgoing Leo energy operates. Often very artistic, and always theatrical and expressive, this sign is good for creativity and the arts. Warm and big-hearted, this sign belongs to love of animals, sports, children.

Leo

Your burning zeal for the ideal world and your need to be part of a group of like-minded souls are major factors in your makeup. You learn and grow through your efforts to help others and to make your inner vision into a reality.

Pluto in 11th House

## Twelfth House: Sacrifice, Psychology, Acceptance

The 12th house is about all that we go through in order to make our dreams into reality and manifest them in the world around us. It covers what we are willing to put up with, the sacrifices we will make in order to bring across what is really important. This is connected to prisons, institutions, betrayal, self-undoing, and the like, because it is here that we must choose to take some possible abuse for the sake of the message we are carrying, or blow it all away with a negative reaction.

Virgo energy is analytical and precise, always separating what is worthwhile and worth supporting from that which is outmoded and of no further use. A mental sign, where thinking and examining are in high focus. Also, a different kind of mother, here an endless caring and worrying (fussing) about just about everything. Always compassionate and responsive, Virgo energy is service-oriented above all, often thinking and caring more about what others are doing and thinking than for self.

Virgo

You could excel in a career that involves understanding and self-sacrifice. Psychology, counseling -- guiding others to be forgiving and accepting -- may be a special skill that you have. Work with mental patients, prison inmates, and the like is possible.

Jupiter in 12th House

You could be unconventional in matters of psychology, the psyche, and all that is mystical or spiritual. Unusual ways to help or care for others -- insight into accepting life and self-sacrifice -- are yours.

Uranus in 12th House

# Elements

Elements, modalities, and house quadrants. These are all techniques used by astrologers to gain a general picture of how a person measures up. How do your planets and houses total up? Which do you have in abundance, and which do you lack, if any? Those with high totals show what we can or must do in life. These are qualities we have. However, most people are more interested by what they lack or want -- their lowest totals. They tend to study their "wants," imitate, and even pretend to have them. The old adage is: we become what we want (or lack), while we do what we can (or have to do). Here are your totals:

There is an emphasis on communication, expression of ideas, and the connections between things, places, and people. What goes on in your mind is the all-important motivation in your life. You tend towards mental pursuits and admire intelligence.

Have Air

Your positivism lets you get right to the point, and you have little patience with those who shilly-shally. You've plenty of enthusiasm and warm up to things and people quickly. You have an inner self-confidence which burns with its own light.

Have Fire

Common sense and the ability to deal with practical matters may be lacking, and you may wonder at those who spend much time making money, doing life's chores, and attending to basic necessities. You depend on mental activity and confidence.

Want Earth

You may lack flexibility, managing a foot-in-the-mouth when you least need it. You could have trouble adapting to situations or to the demands of those around you. Perhaps it is not easy for you to communicate or smooth over things.

Want Mutable

# Burn Rate

We all change, but the question is: At what rate? Some of us tear through change after change, one phase following another, year after year, while others move at a more serene pace. Or, one area of our lives may be hectic and forever changing, while other areas are quite tranquil. Why do some people seem to live lifetimes within lifetimes? Here is an analysis of your particular rate of change or "burn rate," including the particular areas of your life (planets) where you can expect continued change and growth. Areas where there is a very low index of change (indicating clear and easy use of the qualities involved) will also be pointed out. If you have sometimes wondered about the areas of your life where the candles burn at both ends, here are the details.

You have a very high burn rate (index of change) and tend to run hot and fast. It is almost like having many lifetimes within this single one. Things are always fast and furious with you, and you seldom remain calm for long. Your thirst for experience and growth keeps you always on the move. You work through an enormous amount of change compared to an average person. In particular, the following qualities are areas where you have experienced and will continue to experience much change. These areas of life persist in presenting themselves to you, so you may already have become very experienced in them. On the other hand, they could be arenas in which you struggle but have not yet attained mastery.

A majority of planets in the PAST suggests that you are comfortable with established values. You know and understand more than you let on, and life changes seldom take you by surprise. You have a great deal of control over your actions.

## Planets in High Focus

The mind, and all that is mental, will be the source of continued change and adjustment. Letters, writing, speaking, and all things having to do with communication and cognitive work assume great importance. Your mind tends to be engrossed with thoughts, ideas, and concepts and remains in almost constant flux. Mental learning is an area of preoccupation.

Mercury

You will go through a lot of change regarding personal values -- your ability to appreciate, measure, and appraise things. You may find yourself preoccupied with possessions and the way you feel about them. All matters of value, valuing, and ownership will be the source of continuous learning. Issues of compassion, love, and care are areas that will require learning.

Venus

Emotional change and growth will be in high focus and amount to a constant in your life. A high burn rate here suggests that feelings, motivation, and sheer drive will be a trademark as well as a source of continual experience and learning. You find yourself in constant change in matters of feelings, and emotional scenes are part of your stock and trade. Experience in these realms will be extensive.

Mars

There are big changes (high burn rate) throughout your life in matters of organization and responsibility. It may be difficult for you to learn to be thorough, to finish things, and take care of all the loose ends. You may have a lot to learn regarding what is and what is not essential in life -- separating the wheat from the chaff. Getting down to the nitty-gritty, the bare bones of the matter, could well be a major lesson.

Saturn

You have a high rate of change when it comes to what you believe in -- your ideals and dreams. You adjust and change your ideals often and struggle not to get carried away with each new vision. The world of your imagination is a major focus of change.

Neptune

# Challenges and Abilities

## Focus

---

These are areas of life where we show intense focus and activity. For better or worse, these qualities stand out and are obvious to all those who come to know us. They are very clear parts of our character.

You are very much involved with all that is traditional, but with this special twist: you are a revolutionary when it comes to the domestic scene and have very special insights into home, family, and surroundings. Others find you original (certainly very different) and perhaps unpredictable, especially when it comes to emotional reactions. Your approach to feelings, moods, and the whole psychological gambit is novel. You tend to show emotions suddenly and/or in unusual ways. You like unconventional friends and are a nonconformist yourself. Independent women may be important to you.

Jupiter Conjunct Uranus

You find the past, tradition, and all that is historical very romantic, and the ideal world of yesteryear seems to beckon and call. You are most imaginative when it comes to anything spiritual, or psychological -- pertaining to the psyche. Others find you entrancing and always able to draw them into your world of images and dreams. You can inspire them with spiritual ideals. No one has any doubt that you are a high floater -- a full-blown dreamer, complete with built-in psychic abilities and probably given to visions.

Mars Conjunct Neptune

## Challenges

---

Life can be challenging, and things are not always easy. The major challenges in a natal chart are where we can expect increased activity and personal involvement -- ready or not. These critical areas of life can be difficult, and the resulting confusion and possible obscurity often makes it hard for us to see and act with normal clarity. Therefore, when it comes to the following factors you may wish to exercise caution and extra patience.

You flee from crowds and are most happy when surrounded by home, family, and all that is private. Your home life is most important. It matters not to you that you are not a public person and not at your best when in a crowd.

Mercury Opposite Midheaven

It may be hard for you to get support from others on career and vocational decisions. You tend to go against the crowd, taking the road less traveled by. You seldom follow what's popular, always preferring to go it alone. Your home and surroundings may suffer as the result of some of your career choices. You stick to your guns and tend to brush off questions of sentiment, whether your own or others.

Venus Opposite Jupiter

You have little use for tradition, history, and the past, in general. Your autonomy and nonconformist attitude tends to ignore the feelings of others. You seem to enjoy confrontation, going out of your way to challenge whatever is traditional and customary. Don't be surprised if those around you won't always give you the support you feel you deserve.

Venus Opposite Uranus

You may find yourself being too harsh or forceful when dealing with others, especially in group situations. The social fabric around you is something you tear through all too often in your drive to get things done. This can result in a distinct lack of support or assistance from others. Since you tend to ignore sentiment and the feelings of others, you are often left on your own. This non-cooperation makes it hard to really get ahead.

Sun Square Mars

You keep your feelings and emotions to yourself and resent any attempt to analyze or probe them. Your home and surroundings are tidy and air-tight, as well. However, you don't mind probing and dissecting the lives of others. This can't help but produce a strain in your relations with others, and you probably get very little support for your detective work. These two parts of you which seldom meet cause constant tension, resulting in periodic explosions.

Moon Square Pluto

Your dreams and ideals tend to clash with your reality, the actual surroundings in which you find yourself. You may insist on perfection at the expense of your personal emotions and feelings. Others may see you as unrealistic or downright deceptive. Others may confront you and refuse to go along with your other-worldliness. You labor to find some compromise between dreams and your actual surroundings.

Sun Square Neptune

You could find that you are neglecting either your home and family or your career (or both) due to your social and personal life. Relationships, working with other people, and making a good presentation. Home life is secondary.

Saturn Square Midheaven

## Talents and Abilities

Despite whatever problems we may have, there are areas of life where we have clear insight and real talent -- natural ability. When it comes to these matters, our judgment is sharp and we always manage to take charge. We have the knack. It may be as simple as the ability to work hard and accomplish things without something going wrong. An innate sense of the workings of these parts of life makes it easy for us to learn and accomplish things where they are concerned.

Your career always seems to get the support you need, and this is one area of life that runs smoothly. You seem to understand what the public wants, and mass marketing is a natural for you.

You are disciplined, work hard, and are good at getting others to work with and for you. Perhaps a little too serious and frugal, you enjoy getting along on less. Essentials are what count. You like to keep to yourself and tend to avoid too much socializing. Others may prefer keeping some distance too.

Moon Trine Saturn

You are very original when it comes to home and surroundings -- the environment you build around you. This could also manifest in unusual ways of supporting yourself. Your mother may have been quite eccentric or your upbringing somehow different. When you have breakthroughs, they often come as insights into your immediate surroundings, home, and environment -- your support system in general. This could also manifest in your finding new and different ways to make a living. You may have new ideas about the past, history, and younger people, find it easy to create an unusual environment, and enjoy surrounding yourself with what is new and different.

Chances are, your social skills mean that you are popular with almost everyone.

People sense this about you and trust you with sensitive matters, inner worries, and questions of personal identity. You have a real mission and a sense of purpose.

Mercury Trine Pluto

You are very fortunate in being able to grow and progress throughout your life without major difficulties. You can always find the resources you require at hand plus the necessary instruction in how to use them. An inner vision, coupled with the ability to see the "Big" picture, often finds you working as a go-between with others. A love of animals, children, older people, and the needy and downtrodden in general, is a lifelong trait.

# Life Landscapes

## Landscape: Major Life Periods

---

What follows amounts to a brief overview of the first thirty years or so of your life -- a road map of the years to come. Since childhood, adolescence, and early adult life are so crucial to each of us, an attempt has been made to describe these formative years. Based on the gradual movement of the planet Saturn, this is one of the most tested of all astrological techniques. It is used by almost every professional astrologer as part of any personal consultation. Provided that your time of birth is more or less accurate, you will find this information both accurate and informative. Here is a general life overview, followed by a close-up on your current changes -- what is happening right now. First the overview:

### Your Personal Background

You are a late bloomer, and your childhood should be an easy one. However, in your early teens (somewhere around the age of 14-15), you will take a distinct turn toward the more inner and subjective. This could mean a number of years when you feel insecure, very alone, and quite on your own. The years from 14 through 21 or 22 will be times of intense searching and self-examination during which you may not have much outwardly to show others as to who you are or what you can do. You could be perceived as hard to reach, and you may feel that no one recognizes who you are. Fear not, for this is not a long-term condition. In your early to middle twenties, you will have a real awakening (suddenly find yourself), will move outward, and will find something upon which you can build with confidence. Each year afterwards brings a gain in self-confidence and accomplishments. Your most successful years (from 30-40) will bring you material gain and outward recognition. You could reach a peak of fame or success around the 37th or 38th year.

### Your Current Situation

Now for a close-up of recent years: while landscape was quite general, the dates given in this close-up should be much more precise. Life is composed of sections of time, each devoted to one kind of activity or another. We go along for a while in one direction until something changes within (or outside) us and we head off in a new course. Some of our earlier activities dry up and new ones spring up in their place. What follows is an analysis of the time period in which you find yourself now. Don't look here for a day-to-day account of life but rather to get a picture of this stretch of time, "these years."

### On Descendant: Jun 07, 2027

The above dates mark the end of a number of years of hard work on your part, sort of an apprenticeship. Now you will begin to come into your own. Opportunities will present themselves. Now is the time to make that outward push and ride the crest of the wave into fame and fortune. This is the best time you will have (for many years) to make progress, push forward, and rise to prominence. It will be hard for you to do wrong, for all the cycles are working in your favor. This is also a time when you may marry or take on a new role in the community or with other people. You will be in demand, and recognition will be forthcoming. Go for it. These next 6-7 years will find circumstances working to help you and raise you up, push you forward. In summary, this marks a more outward and enjoyable series of years, during which things will come to you easily. Friends and a social life are in order and, in general, an easy and untroubled life. These are good years to grow up, be social, recognized, and so on.

# Major Transits

You will go through a lot of change regarding personal values -- your ability to appreciate, measure, and appraise things. You may find yourself preoccupied with possessions and the way you feel about them. All matters of value, valuing, and ownership will be the source of continuous learning. Issues of compassion, love, and care are areas that will require learning.

Home and job come under intense scrutiny and pressure as you find yourself digging into everything that is most personal and private about yourself. A time to get down to basics and strip away all that is nonessential. Not much of a social time.

Pluto Square Ascendant on Jan 15, 2021
