Introduction

Welcome to your Forecast Report

This report shows the astrological trends influencing your life over a period ranging from days to months or years, depending on the time frame used.

The duration of each trend is indicated by a starting date, an ending date and strongest influence date. Further, an influence may begin before the time frame of the report or end beyond it.

The accuracy of the timing of the forecasts is dependent on the accuracy of the birth time. Be prepared to slide the sequence of trends either forwards or backwards in time if necessary. In some instances, there may be interpretations that repeat themselves. This is due to the cyclical and forward and backward motion of the planets activating points on your chart more than once in the period under review.

As you will find, the forecast interpretations can be positive and/or challenging. Their effects can be experienced either directly personally or through events in the lives of others in the environment. Some trends will be more apparent than others, while others may be subtler. What is most important is how you respond to them.

We trust you will find the report insightful and helpful.

This transit can only happen at two periods in a life: either within the first year of life or at the age of 84. If it occurs during infancy, it can coincide with disruptions within the family. At the age of 84, it marks the conclusion of a major cycle. Often this later-life return coincides with a sense of liberation and freedom.

Before 7 Aug 2020 to 1 January 2021 08:15 EDT +04:00:00, strongest around 7 August 2020 10:35 EDT +04:00:00 and 28 November 2020 07:45 EDT +04:00:00, Transiting Pluto is Conjunct your Natal Pluto

Before 7 Aug 2020 to 15 September 2020 11:13 EDT +04:00:00, strongest around 7 August 2020 10:35 EDT +04:00:00, Transiting Neptune is Conjunct your Natal Neptune

This transit can only occur in early infancy. It may signify physical and/or spiritual sensitivity during these months.

Before 7 Aug 2020 to 23 August 2020 16:16 EDT +04:00:00, strongest around 7 August 2020 10:35 EDT +04:00:00, Transiting Saturn is Conjunct your Natal Saturn

This year is a significant period in your life; with transiting Saturn returning to the position it held in horoscope at birth. This transit activates the process of distancing yourself from outmoded principles, obligations and structures. These will be replaced with new frameworks, which are more pertinent to your future needs. Essentially, one phase of life is being brought sharply into focus and toward an eventual end and a new phase is being cemented into place. To complete the transition, you must be prepared to accept a fundamental shift in attitude and outlook. This is a stocktaking year, in which life must be viewed seriously and realistically; priorities require clarification and important decisions need to be made. Attempt to simplify and reduce your life to absolute basics by systematically separating from situations that are no longer relevant or sustainable. These may take the form of people, places, lifestyles, relationships, jobs, behavioral patterns and habits. Genuine sacrifices and, in some cases, separations are necessary in order to move forward. If you knowingly hold on to something or someone that may be preventing you from growing, you will risk inhibiting your personal development at many levels. Difficulties will no doubt be apparent throughout the year, but if confronted and dealt with, the long-term gains outweigh the short-term pains. Expect to lead a more modest and simple lifestyle, with the need to consolidate and economize. At this time, put reason before emotion or sentimentality. You will be very aware of the difference between reality and illusion. You are in the process of inner change

and transition. Taking a bold step, past the point of no return, away from former structures may be required now.

Before 7 Aug 2020 to 18 August 2020 10:30 EDT +04:00:00, strongest around 7 August 2020 10:35 EDT +04:00:00, Transiting Jupiter is Conjunct your Natal Jupiter

Approximately every 12 years, transiting Jupiter returns to the degree of the zodiac it occupied at the time of your birth. This transit is called your "Jupiter Return". In general, the "Jupiter Return" is a very positive influence and, because of it, you can expect to feel confident and optimistic over this period. To get the most benefit from this transit, you are encouraged to view life positively and to give some consideration to your long-term goals and aims. It is now the time for planting seeds that will bear fruit over the next 12-year Jupiter cycle. Expect your understanding of the world to broaden - this may be experienced through such things as long-distance travel, higher education, or simply by being more outreaching and embracing of life and others. Essentially, this transit brings the rewards of hard work proportional to the amount of effort you put in. However, if you simply sit around enjoying the feelings of well-being it induces, you will have little to show for it in your life after it passes. Business and financial investments usually prosper under this transit, and some people actually receive sudden windfalls, but that tends to be the exception rather than the rule. All in all, the "Jupiter Return" is a fortunate transit - but it only gives back as much as you put into it.

8 October 2020 02:50 EDT +04:00:00 to 27 October 2020 04:53 EDT +04:00:00, strongest around 18 October 2020 19:15 EDT +04:00:00, Transiting Jupiter is Conjunct your Natal Jupiter

23 October 2020 17:58 EDT +04:00:00 to 7 November 2020 05:41 EDT +04:00:00, strongest around 31 October 2020 10:13 EDT +04:00:00, Transiting Jupiter is Square your Natal Mars

This is an essentially positive transit; however there are pitfalls to be aware of that can lessen its positive effect. Firstly, there can be a proneness to immoderate activity. Secondly, you may feel motivated to take risks that you wouldn't ordinarily take. Thirdly, you can project an over-inflated sense of your own self-importance to others. In all instances the outcomes could be an unraveling of your good efforts. Yet, if you can keep a sense of perspective, plan your moves well and remain circumspect during this period, the potential for success in any undertaking is almost certain. This is an excellent period for business matters, negotiations and for starting new projects, providing there aren't other more powerful transits from the stronger planets to contend with also. Your sense of timing is very good now and, as luck will seem to have it, you will probably conveniently find yourself in the right place at the right time. Relations with others can improve now and disputes can be sorted out. If you are sports oriented, this transit can improve your game and take you to another level of fitness.

3 November 2020 13:51 EDT +04:00:00 to 30 November 2020 10:06 EDT +04:00:00, strongest around 18 November 2020 11:46 EDT +04:00:00, Transiting Saturn is Conjunct your Natal Saturn

8 November 2020 15:31 EDT +04:00:00 to 20 November 2020 12:02 EDT +04:00:00, strongest around 14 November 2020 18:32 EDT +04:00:00, Transiting Jupiter is Conjunct your Natal Pluto

At this time, you have a powerful urge to make your mark - perhaps, by whatever means necessary. This is a potent configuration, which requires careful handling because the potential for success is great, but so too is the risk of disaster if you over-estimate yourself and your abilities. By way of an illustration to the power of this planetary pairing for gain and loss some authors have referred to it as the "make a million, lose a million" aspect. Therefore proceed with caution if contemplating taking risks that are more than you can withstand. Compulsive behavior and power plays are common with this transit and you have to be very careful who you take on as an opponent. Those in positions of power, such as bosses or authority figures could make your life difficult, if you get out of your depth with them. Also, there can be the tendency to become zealous or obsessive, which can lead to arguments with others or cause you to lose sight of whom or what is important in your life. Positively, you may demonstrate a capacity for leadership and organization - an ability to step in and take charge of situations.

1 December 2020 22:58 EDT +04:00:00 to 11 December 2020 18:19 EDT +04:00:00, strongest around 6 December 2020 22:28 EDT +04:00:00, Transiting Jupiter is Conjunct your Natal Saturn

This is one of the more testing transits of Jupiter, but it is by no means unmanageable. Advancement in life at this time seems slow or cumbersome, and everything you want to achieve appears to take a lot more effort than usual. Any progress you make comes at a price and it will probably feel that life is moving along at the rate of three steps forward and two steps back. Also, there can be temporary setbacks and possible financial constraints or worries. At an inner level, you are likely to feel discontented, for no apparent reason, and your self-confidence may be temporarily dented. However, as you will discover, this state of affairs will not last for long. The best way for you to deal with things now is with patience and to persevere in your endeavors. Professionally, if your work is unsatisfying, you may decide to change jobs, but only take such a step if you have something better to go to. Buying and selling property is often successful with this transit.

5 January 2021 04:06 EDT +04:00:00 to 13 January 2021 18:07 EDT +04:00:00, strongest around 9 January 2021 11:34 EDT +04:00:00, Transiting Jupiter is Opposition your Natal Mercury

You are motivated now by the urge to expand your outlooks on life and broaden your horizons. You are currently well-aspected for local and international travel or higher education and intellectual work, and success in any of these areas is to be expected, providing you have done the required preparatory work. However, don't expect to succeed on the strength of this transit alone; your results will reflect your prior efforts. You will have big plans at this time; just make sure that they are reasonable and realizable. With this transit, there can be a tendency to get so wrapped up with an idea or plan that important details get overlooked or ignored. Therefore, you will benefit from listening to other people's opinions about your ideas, because they can offer constructive criticism and advice. This could be a good time to improve your career prospects, especially in areas related to communication sectors, computing, language, commerce or law.

19 January 2021 05:58 EDT +04:00:00 to 5 February 2021 02:09 EDT +04:00:00, strongest around 27 January 2021 15:33 EDT +04:00:00, Transiting Saturn is Opposition your Natal Mercury

For the duration of this transit your thinking will tend to be serious, realistic and practical. Your mind is not occupied with light and frivolous matters; instead, important issues need to be addressed. Possibly, you will be inclined to pessimism; certainly, if you have a tendency to worry, you will now. Try to keep a sense of humor and perspective and don't allow yourself to become gloomy. While your prospects may seem restricted now, this is only a temporary state of affairs. Other people may seem unreasonable to you now and, possibly, they may challenge or obstruct your ideas or plans. Traveling during this transit could require more effort, as there is the likelihood of delays or irritations of some sort. The positive side of this transit is that your powers of concentration and your ability to sort out your priorities are stronger than usual.

30 January 2021 04:17 EDT +04:00:00 to 7 February 2021 14:34 EDT +04:00:00, strongest around 3 February 2021 09:21 EDT +04:00:00, Transiting Jupiter is Square your Natal Uranus

Expect the unexpected with this transit, but don't presuppose that what you experience will necessarily be to your liking, because any transit involving Uranus is going to be unpredictable. Positively, this is a period in which sudden opportunities could present themselves and offer you the chance to break out of old routines and experience new things. For instance, you may have to suddenly contend with new conditions in your work, or you meet someone who influences you profoundly. Some people even have sudden financial windfalls or the chance to travel. Definitely, you will want to make changes for the better under this influence and you should receive plenty of signals, by way of intuitive flashes, as to how to do this. Occasionally, this transit is preceded by an intense feeling of tension which suddenly releases when it becomes exact. One word of caution, you could annoy others and consequently miss good opportunities now, if you display an intolerant attitude or contradict people for the sake of it. Legal matters are best avoided now, if possible, as their outcome is difficult to predict. In fact, if conflicts of any description do arise, it is in your best interests to try and nip them in the bud, lest they become exaggerated out of all proportion.

6 February 2021 03:45 EDT +04:00:00 to 1 April 2021 12:35 EDT +04:00:00, strongest around 5 March 2021 19:32 EDT +04:00:00, Transiting Neptune is Conjunct your Natal Neptune

This transit can only occur in early infancy. It may signify physical and/or spiritual sensitivity during these months.

19 February 2021 19:56 EDT +04:00:00 to 28 February 2021 12:22 EDT +04:00:00, strongest around 24 February 2021 03:35 EDT +04:00:00, Transiting Jupiter is Opposition your Natal Sun

During this period, your desire for gain, power and advantage is accentuated. You have the urge to improve your position in life. Above all, you want to better yourself and expand your horizons - which you may do through travel, higher education, financial activity or speculation. However, you must take great care to keep a sense of perspective on everything and not to over-estimate yourself or your capabilities. There is a danger that you may take on more than you can comfortably handle and risk getting out of your depth. Also, you could be prone to wastefulness and extravagance now. In extreme circumstances, some people can be prone to disproportional amounts of arrogance during this transit, and conflicts with authority figures or brushes with the law are not unheard of. This said there are definite opportunities for growth and personal development under this influence.

12 March 2021 12:08 EDT +04:00:00 to 4 April 2021 16:53 EDT +04:00:00, strongest around 23 March 2021 06:38 EDT +04:00:00, Transiting Saturn is Square your Natal Uranus

This can be an especially tense and stressful time for you, with your nerves being stretched to their limits. It may seem that others or circumstances are preventing you from doing whatever you want to do. Just about every assertion of your independence meets resistance. Under certain circumstances, you may have to battle against restrictive forces such as authority figures or bureaucratic red tape in order to move forward. However, this does not include breaking the laws of the land or moral codes, because you'll only get caught. You may want to break out of old patterns and have new experiences, but something holds you back. It could be a fear of stepping outside of your safety zone, or it could be someone wanting to keep you in check for some reason. You can be unusually reactive at this time and prone to sudden and unexpected outbursts. You need to watch your stress levels, as too much stress now could negatively impact on your health. Also, guard against accident or injury proneness.

15 March 2021 16:37 EDT +04:00:00 to 11 June 2021 06:15 EDT +04:00:00, Transiting Pluto is Conjunct your Natal Saturn

This can be a testing period in your life, particularly if you are someone who ordinarily resists change. In extreme circumstances, this transit can bring people into confrontation with authority figures or cause losses through forces beyond personal control. Pluto, the planet of transformation and regeneration, has come into the sphere of your natal Saturn, the planet of structure, boundaries and rigidity. While we all need structure in our lives in order to function properly, there are some structures we create that actually prevent us from growing and moving forward. Pluto's purpose now is to force you to explore different dimensions of yourself and alert you to aspects of your life that are limiting you or holding you back. Examples of limiting factors in your life may include unrewarding relationships, an unsatisfying career or an unfulfilling lifestyle. With this transit, you could find that an unsatisfactory situation becomes so intolerable that something has to give. This can be a time when you break free from self-limiting restrictions or inhibitions and assume a new persona or change the direction of your life in some way. On one hand, this process of breaking down barriers can be unsettling and disruptive, but on the other hand, it is ultimately liberating and rewarding. Positively, this can be an excellent time to pursue a course of serious and demanding study, or to commit to a challenging project.

12 April 2021 20:51 EDT +04:00:00 to 17 May 2021 21:31 EDT +04:00:00, strongest around 30 April 2021 09:29 EDT +04:00:00, Transiting Uranus is Conjunct your Natal Uranus

At the age of 84, it marks the conclusion of a major cycle. Often this later-life return coincides with a sense of liberation and freedom.

12 July 2021 10:25 EDT +04:00:00 to 9 August 2021 02:13 EDT +04:00:00, strongest around 26 July 2021 14:25 EDT +04:00:00, Transiting Saturn is Square your Natal Uranus

25 July 2021 23:44 EDT +04:00:00 to 13 September 2021 22:46 EDT +04:00:00, Transiting Uranus is Square your Natal Sun

These are fast-moving times. Nothing stands still for very long while you are under the influence of this transit. Even if it makes you nervous, you want to make a number of changes in your life. New and interesting people will enter your life now and introduce you to many new experiences, some of which you may never have thought possible. Whether you enjoy these experiences or not will depend on how you feel about change in general. Whatever your personal circumstances, you will be restless and unsettled; you may also experience disturbed sleep. All of these are signs of a strong inner desire to break out of your old routines and to revitalize and re-invent yourself. Some people change their jobs or place of residence under this influence, even break away from relationships that have become dull and predictable. Of course, not everyone has to make such radical changes. If you are in control of your own life, you will see this period as an opportunity for making some changes. You could, for example, decide to "get up to speed" with technology or change a few things around the home or office. If, however, you are not in control of your life, you will either start kicking against any restrictions or begin to experience sudden upsets from external sources. A partner may suddenly leave or cause you unrest, or you could be suddenly faced with disruptions at work or in your neighborhood. All of these are signs that you are not in full command of your circumstances and that you need to make adjustments to your lifestyle. One word of caution, you may have to take extra care of your health, as there can be a tendency to stress-related illnesses or even accidents. Your relationship to a male may change under this influence.

Often under this transit, people feel tired and weary, as if the weight of the world is upon them. Now, more than at any other time, you will have to put your nose to the grindstone and just get on with it. Money may be tight, work is a labor, and other people seem intent on blocking your progress. Still, you can have successes, but possibly not in ways that you'd expect. There are rewards for sacrifice, patience and perseverance. Over time you will rise to a new position in life, if you are prepared to put in the long hours now and to persevere. The key to success now is to maintain focus, keep a sense reality and, most importantly, plan all of your moves carefully and strategically. Remember your responsibilities, keep a cool head and do not scatter your energies over too many projects. And, whatever your age, watch your general health, but more particularly if you are older. In certain circumstances, estrangements or separations can occur.

23 March 2022 23:36 EDT +04:00:00 to 1 April 2022 10:39 EDT +04:00:00, strongest around 28 March 2022 04:41 EDT +04:00:00, Transiting Jupiter is Conjunct your Natal Neptune

At this time, you are especially susceptible or vulnerable to external influences. You are at risk from viewing life and others through "rose-tinted glasses". Take particular care with "sure bets" and "get-rich-quick schemes", because there is a very real danger now that your ability to make financial judgments is impaired. Also, should this transit coincide with a medical concern, you could benefit from obtaining a

second opinion. Positively, your inner and spiritual life is enhanced now; more so than at just about any other time. You have a great wealth of feeling and compassion, coupled with a sincere desire to help those in need. Your interest in metaphysical subjects is likely to grow now and you may experience unusual insights. If you are in any way musical, artistic or creative, you can expect your powers of inspiration and imagination to get a boost now. Travel under this influence is usually beneficial.

If, however, you are not in control of your life, you will either start kicking against any restrictions or begin to experience sudden upsets from external sources. A partner may suddenly leave or cause you unrest, or you could be suddenly faced with disruptions at work or in your neighborhood. All of these are signs that you are not in full command of your circumstances and that you need to make adjustments to your lifestyle. One word of caution, you may have to take extra care of your health, as there can be a tendency to stress-related illnesses or even accidents. Your relationship to a male may change under this influence.

Positively, this can be an excellent time to pursue a course of serious and demanding study, or to commit to a challenging project.

New and interesting people will enter your life now and introduce you to many new experiences, some of which you may never have thought possible. Whether you enjoy these experiences or not will depend on how you feel about change in general. Whatever your personal circumstances, you will be restless and unsettled; you may also experience disturbed sleep. All of these are signs of a strong inner desire to break out of your old routines and to revitalize and re-invent yourself. Some people change their jobs or place of residence under this influence, even break away from relationships that have become dull and predictable. Of course, not everyone has to make such radical changes. If you are in control of your own life, you will see this period as an opportunity for making some changes. You could, for example, decide to "get up to speed" with technology or change a few things around the home or office. During this period, you will tend to view life more positively and optimistically than usual. Expect your understanding of the world to broaden - this may be experienced through such things as long-distance travel, higher education, or simply by being more outreaching and embracing of life and others. However, there is a need to caution against extending your scope of activity beyond what you can reasonably manage - or of losing your sense of proportion and perspective. At its best, this transit brings the rewards of hard work commensurate to the amount of energy you put in. But if you simply sit around enjoying the feelings of well-being it induces, you will have little to show for it after it passes. While this can be a financially prosperous time, you would do well to guard against wasteful or extravagant tendencies. Also, it is not uncommon for some people to get a superiority complex during this transit and end up arguing with others, especially over matters of outlook or philosophy.

You are motivated by the urge to live life as fully and productively as you can, because you have more drive and determination than usual now. This is an excellent business period, or time for initiating enterprises and starting new projects. It is also one of the best transits possible for making decisions and negotiating deals in your favor. Truly, it is the combination of the successful manager or entrepreneur. The only thing you need to be aware of is a tendency to take on more than you can comfortably handle or to over-estimate your physical powers. If you are sports oriented, this transit can improve your game and take you to another level of fitness. The main feature of this transit is "successful action". Take advantage of it, as it only comes around once every 12 years.

Compulsive behavior and power plays are common with this transit and you have to be very careful who you take on as an opponent. Those in positions of power, such as bosses or authority figures could make your life difficult if you get out of your depth with them. In extreme circumstances, if you over-estimate yourself or display excessive arrogance, the consequences won't be to your liking. Also, there can be the tendency to become zealous or obsessive, which can lead to arguments with others or cause you to lose sight of whom or what is important in your life. Positively, you may demonstrate a capacity for leadership and organization - an ability to step in and take charge of situations.

This is one of the more testing transits of Jupiter, but it is by no means unmanageable. Advancement in life at this time seems slow or cumbersome, and everything you want to achieve appears to take a lot more effort than usual. Any progress you make comes at a price and it will probably feel that life is moving along at the rate of three steps forward and two steps back. Also, there can be temporary setbacks and possible financial constraints or worries. At an inner level, you are likely to feel discontented, for no apparent reason, and your self-confidence may be temporarily dented. However, as you will discover, this state of affairs will not last for long. The best way for you to deal with things now is with patience and to persevere in your endeavors. Professionally, if your work is unsatisfying, you may decide to change jobs, but only take such a step if you have something better to go to. Buying and selling property is often successful with this transit, providing you don't over-extend yourself financially.

You will have big plans at this time; just make sure that they are reasonable and realizable. With this transit, there can be a tendency to get so wrapped up with an idea or plan that important details get overlooked or ignored. Therefore, you will benefit from listening to other people's opinions about your ideas, because they can offer constructive criticism and advice. This could be a good time to improve your career prospects, especially in areas related to communication, computing, language, commerce or

law.

2 May 2024 05:27 EDT +04:00:00 to 4 September 2024 01:40 EDT +04:00:00, Transiting Neptune is Square your Natal Venus

In almost every instance, this transit is related to romantic love. This is the combination of the incurable romantic who is in love with the idea of love. However, love involving Neptune and Venus is like a double-edged sword. On the one side, there is the tendency to be drawn to someone thinking that he or she is the perfect lover - or someone may become infatuated with you. On the other, there is a danger of being sucked in and having your heart broken through disappointment, or even deception. Both of these can occur within established relationships, or in any new ones that start now. During this transit, you may try to lose yourself in, or merge spiritually, with another, and that can certainly happen. However, chances are that the object of your affection won't be able to meet your expectations as fully as you'd wish. Yet, love can blossom under this influence; it just needs to be taken slowly and with as much self-honesty as possible. After the transit has passed you will have a better sense of where you stand in a relationship. Romance aside, this configuration also advantages anyone who is artistically gifted or inclined. Music, the visual arts, painting, dance, theater and fashion can all flourish during this period.

6 June 2024 21:47 EDT +04:00:00 to 27 July 2024 21:45 EDT +04:00:00, Transiting Neptune is Conjunct your Natal Moon

This may be a highly emotional period for you. Your sensitivity is more acute now than at just about any other time in your life. You will pick-up on virtually every little nuance and mood in others and the environment. You may be quite surprised at how emotional you are now. You could even find yourself spontaneously weeping over the smallest thing. There is little point trying to rationalize your feelings at the moment, because what could be churning you up comes from deep within. Instead, acknowledge your present sensitivity and try to go with the flow. If you are at all creative, this can be a wonderful transit because it charges your imagination and powers of inspiration. Your intuition is powerful now and there is the possibility you will experience premonitions. Take care, however, with regard to matters of the heart; new relationships may not be as they seem and there is a danger of being deceived and disappointed. There can be misunderstandings with women now and upsets on the home front caused through over-sensitivity. Moderation in intoxicants or stimulants is advisable.

Take particular care with "sure bets" and "get-rich-quick schemes", because there is a very real danger now that your ability to make financial judgments is impaired. Also, should this transit coincide with a medical concern, you could benefit from obtaining a second opinion. Positively, your inner and spiritual life is enhanced now; more so than at just about any other time. Your interest in metaphysical subjects is likely to grow now and you may experience unusual insights. If you are in any way musical, artistic or creative, you can expect your powers of inspiration and imagination to get a boost now.

imagined. Total happiness seems to elude you at present. Worry and anxiety come and go in phases. You may have to take extra care of your health. Probably, you will feel tired and worn out. If so, make sure you are getting adequate sleep. You could be susceptible to infections and the effects of intoxicants or certain medicines. If you notice your vitality is lower than usual, a check-up may be in order.

2 March 2025 23:34 EDT +04:00:00 to 26 April 2025 20:42 EDT +04:00:00, strongest around 29 March 2025 13:19 EDT +04:00:00, Transiting Neptune is Square your Natal Venus

In almost every instance, this transit is related to romantic love. This is the combination of the incurable romantic who is in love with the idea of love. However, love involving Neptune and Venus is like a double-edged sword. On the one side, there is the tendency to be drawn to someone thinking that he or she is the perfect lover - or someone may become infatuated with you. On the other, there is a danger of being sucked in and having your heart broken through disappointment, or even deception. Both of these can occur within established relationships, or in any new ones that start now. During this transit, you may try to lose yourself in, or merge spiritually, with another, and that can certainly happen. However, chances are that the object of your affection won't be able to meet your expectations as fully as you'd wish. Yet, love can blossom under this influence; it just needs to be taken slowly and with as much self-honesty as possible. After the transit has passed you will have a better sense of where you stand in a relationship. Romance aside, this configuration also advantages anyone who is artistically gifted or inclined. Music, the visual arts, painting, dance, theater and fashion can all flourish during this period.

23 March 2025 22:00 EDT +04:00:00 to 26 May 2025 06:36 EDT +04:00:00, strongest around 20 April 2025 09:55 EDT +04:00:00, Transiting Neptune is Conjunct your Natal Moon

This may be a highly emotional period for you. Your sensitivity is more acute now than at just about any other time in your life. You will pick-up on virtually every little nuance and mood in others and the environment. You may be quite surprised at how emotional you are now. You could even find yourself spontaneously weeping over the smallest thing. There is little point trying to rationalize your feelings at the moment, because what could be churning you up comes from deep within. Instead, acknowledge your present sensitivity and try to go with the flow. If you are at all creative, this can be a wonderful transit because it charges your imagination and powers of inspiration. Your intuition is powerful now and there is the possibility you will experience premonitions. Take care, however, with regard to matters of the heart; new relationships may not be as they seem and there is a danger of being deceived and disappointed. There can be misunderstandings with women now and upsets on the home front caused through over-sensitivity. Moderation in intoxicants or stimulants is advisable.

20 April 2025 22:04 EDT +04:00:00 to 1 May 2025 04:37 EDT +04:00:00, strongest around 26 April 2025 03:23 EDT +04:00:00, Transiting Jupiter is Square your Natal Neptune

At this time, you are especially susceptible or vulnerable to external influences. You are at risk from viewing life and others through "rose-tinted glasses". Take particular care with "sure bets" and "get-rich-quick schemes", because there is a very real danger now that your ability to make financial judgments is impaired. Also, should this transit coincide with a medical concern, you could benefit from obtaining a second opinion. Positively, your inner and spiritual life is enhanced now; more so than at just about any other time. Your interest in metaphysical subjects is likely to grow now and you may experience unusual insights. If you are in any way musical, artistic or creative, you can expect your powers of inspiration and imagination to get a boost now.

This transit has the effect of re-aligning your mode of thinking and forcing you to look at things in a new

or different way. Your awareness is changing now, either through an inner process of intellectual regeneration, or because of external events that impact upon your thinking. This is an excellent transit for carrying out research work. You are not interested in light and trivial matters now; instead you feel driven to gain a deeper understanding of life. As a communicator, your powers of persuasion are accentuated now and successes as a speaker or writer are possible during this period. However, as your mind is more acute and critical now, there may be a tendency for you to hold extreme views and to get into fierce arguments with others. There can be exposure to prejudice or subversion from others.

This is one of the more challenging transits of Saturn, because it affects your personal connections and love or affection unions by testing their stability. Relationships that are rocky may not survive this period, whilst those that are essentially secure will endure and become firmer. Whatever the current state of your important relationships, you are advised to keep your feelings in check and to encourage your head to rule your heart. If that seems dull and boring so be it, but it might just be the difference between success and failure in a relationship. This can be a time for commitment or re-commitment in love. It can also be a time of separation or loss.

This can be a trying time for you emotionally; your feelings are being kept in check by the demands of routine responsibilities, which may seem heavier than usual. Life will seem more laborious and, in general, you won't be feeling light and bubbly. Possibly, you feel that others don't understand your needs - or care - and that they are not especially supportive. Still, this is not a time to get down-hearted. Instead, you need to look at your situation, put your feelings to one side and take whatever practical steps are necessary to move forward. Sometimes, emotional connections can be terminated at this time, which under certain conditions may be for the best. There may be difficulties with women or worries within the family.

5 June 2025 03:46 EDT +04:00:00 to 13 June 2025 23:34 EDT +04:00:00, strongest around 9 June 2025 13:56 EDT +04:00:00, Transiting Jupiter is Conjunct your Natal Venus

This is a very pleasant transit and, as it only comes into your life approximately once every 12 years, you want to take as much advantage of it while you can! As both Jupiter and Venus are acknowledged by astrologers to be the two most beneficial planets in the horoscope, their pairing is considered to be especially propitious. Expect to feel happy and in harmony with yourself and others at this time. Your social life will become a whirl of activity as you find yourself in increasing demand, or you may arrange a greater number of social occasions than usual. Romantic affairs are particularly well-aspected under this transit. Any new romances started now will fare very well and existing relationships will seem happier than normal. Your appreciation of the arts is enhanced now and, if you're inclined to invest in artistic projects or works, the outcome should prove to be quite prosperous. Also, if you are artistic, this is an excellent time to exhibit your work and become known. About the worst effect of this transit is a possibility of over-indulgence.

avored under this transit. Even if you don't move house or invest in property, this is an excellent time for making improvements to your home, such as alterations and redecorating. On the personal front, you can expect to relate well to people; you will seem to have an instinct for others' needs. Women, in particular, can be beneficial in your life at the moment. This is one of the best times for traveling overseas, or having visitors from far-off places come to stay.

If you are due for any form of acknowledgement, it will come now and in the months following. An increase in your status is highly likely now. On the personal front, you may form a connection with someone special.

During this period, you will tend to view life more positively and optimistically than usual. Expect your understanding of the world to broaden - this may be experienced through such things as long-distance travel, higher education, or simply by being more outreaching and embracing of life and others. However, there is a need to caution against extending your scope of activity beyond what you can reasonably manage - or of losing your sense of proportion and perspective. At its best, this transit brings the rewards of hard work commensurate to the amount of energy you put in. But if you simply sit around enjoying the feelings of well-being it induces, you will have little to show for it after it passes. While this can be a financially prosperous time, you would do well to guard against wasteful or extravagant tendencies. Also, it is not uncommon for some people to get a superiority complex during this transit and end up arguing with others, especially over matters of outlook or philosophy.

13 September 2025 07:03 EDT +04:00:00 to 27 September 2025 01:16 EDT +04:00:00, strongest around 19 September 2025 20:10 EDT +04:00:00, Transiting Jupiter is Square your Natal Mars

This is an essentially positive transit; however there are pitfalls to be aware of that can lessen its positive effect. Firstly, there can be a proneness to immoderate activity. Secondly, you may feel motivated to take risks that you wouldn't ordinarily take. Thirdly, you can project an over-inflated sense of your own self-importance to others. In all instances the outcomes could be an unraveling of your good efforts. Yet, if you can keep a sense of perspective, plan your moves well and remain circumspect during this period, the potential for success in any undertaking is almost certain. This is an excellent period for business matters, negotiations and for starting new projects, providing there aren't other more powerful transits from the stronger planets to contend with also. Your sense of timing is very good now and, as luck will seem to have it, you will probably conveniently find yourself in the right place at the right time. Relations with others can improve now and disputes can be sorted out. If you are sports oriented, this transit can improve your game and take you to another level of fitness.

During this period, you will be aware of a pronounced desire to assert yourself and to get ahead in life - even if it pitches you against the expectations and beliefs of others. You will have strong ambitions at this time, but you need to keep things in perspective; otherwise you could cross swords with people that, for whatever reason, want to keep you in line. Compulsive behavior and power plays are common with this transit and you have to be very careful who you take on as an opponent. Those in positions of power, such as bosses or authority figures could make your life difficult if you get out of your depth with them. In extreme circumstances, if you over-estimate yourself or display excessive arrogance, the consequences won't be to your liking. Also, there can be the tendency to become zealous or obsessive, which can lead to arguments with others or cause you to lose sight of whom or what is important in your life. Positively, you may demonstrate a capacity for leadership and organization - an ability to step in and take charge of situations.

This is one of the most important transits that Saturn makes in its journey around your chart. One reason is that the planet is now entering the upper hemisphere of your horoscope after spending approximately 14 years below the horizon. For the last 14 years your focus has been on finding out about yourself, often at the expense of worldly acknowledgement. This is all about to change. From this point on, you will start to make an impact on others. However, not everyone is going to appreciate your new power. So be prepared for some difficulties in relationships now and over the next couple of years. Some contacts will be terminated at this time, but don't see this as a bad thing; in all likelihood they have reached the end of their purpose. Good relationships will also go through a period of testing, but will survive.

This transit can be described as a check in development. The two main areas it affects are your career and your personal life. Difficulties or inadequacies of any sort in either are likely to show up clearly now. If you are experiencing frustrations or difficulties in your work, there is a chance they will have an adverse effect on your home-life. Likewise, difficulties at home could affect your effectiveness at work. What is certain is that you will be giving a lot of serious thought to your direction in life at the moment. This is an excellent time for redefining your goals and objectives. You will either decide that the course you are on is worth continuing, or you will seriously consider changing direction. Sometimes, this transit coincides with changes at work that are completely out of an individual's hands. Restructuring can put

job security at risk. You may be forced to work with reduced options or under trying circumstances. Alternatively, you may be saddled with responsibilities you don't really want or don't feel experienced enough to manage.

During this period, you will be aware of a pronounced desire to assert yourself and to get ahead in life - even if it pitches you against the expectations and beliefs of others. You will have strong ambitions at this time, but you need to keep things in perspective; otherwise you could cross swords with people that, for whatever reason, want to keep you in line. Compulsive behavior and power plays are common with this transit and you have to be very careful who you take on as an opponent. Those in positions of power, such as bosses or authority figures could make your life difficult if you get out of your depth with them. In extreme circumstances, if you over-estimate yourself or display excessive arrogance, the consequences won't be to your liking. Also, there can be the tendency to become zealous or obsessive, which can lead to arguments with others or cause you to lose sight of whom or what is important in your life. Positively, you may demonstrate a capacity for leadership and organization - an ability to step in and take charge of situations.

This is one of the more testing transits of Jupiter, but it is by no means unmanageable. Advancement in life at this time seems slow or cumbersome, and everything you want to achieve appears to take a lot more effort than usual. Any progress you make comes at a price and it will probably feel that life is moving along at the rate of three steps forward and two steps back. Also, there can be temporary setbacks and possible financial constraints or worries. At an inner level, you are likely to feel discontented, for no apparent reason, and your self-confidence may be temporarily dented. However, as you will discover, this state of affairs will not last for long. The best way for you to deal with things now is with patience and to persevere in your endeavors. Professionally, if your work is unsatisfying, you may decide to change jobs, but only take such a step if you have something better to go to. Buying and selling property is often successful with this transit, providing you don't over-extend yourself financially.

Business deals and negotiations are especially successful now, but do take care with legal documents and contracts etc - double-check everything! Your ability to communicate is enhanced now and you can make the most of this period by getting in touch with others, net-working or embarking upon some form of learning or study. Your thinking may also lean to the philosophical or religious side of life and you will possibly use this period to seek answers to life's more profound questions. Difficulties that can manifest with this transit, are that you become so wrapped up with the big picture that you overlook important details or gloss over the fine print.

Expect the unexpected with this transit, but don't presuppose that what you experience will necessarily be to your liking, because any transit involving Uranus is going to be unpredictable. Positively, this is a period in which sudden opportunities could present themselves and offer you the chance to break out of old routines and experience new things. For instance, you may have to suddenly contend with new conditions in your work, or you meet someone who influences you profoundly. Some people even have sudden financial windfalls or the chance to travel. Definitely, you will want to make changes for the better under this influence and you should receive plenty of signals, by way of intuitive flashes, as to how to do this. Occasionally, this transit is preceded by an intense feeling of tension which suddenly releases when it becomes exact. One word of caution, you could annoy others and consequently miss good opportunities now, if you display an intolerant attitude or contradict people for the sake of it. Legal matters are best avoided now, if possible, as their outcome is difficult to predict. In fact, if conflicts of any description do arise, it is in your best interests to try and nip them in the bud, lest they become exaggerated out of all proportion.

You can expect to feel better than you've felt in a while. Your health will seem to improve at this time; you may even feel inclined to take up some sort of exercise regime. Less productively, you could become complacent or negligent and consequently miss good opportunities; it would be a shame not to make advantageous use of this period whilst you can. Take care of your diet at this time, especially if you are naturally prone to putting on weight.

Likewise, difficulties at home could affect your effectiveness at work. What is certain is that you will be giving a lot of serious thought to your direction in life at the moment. This is an excellent time for redefining your goals and objectives. You will either decide that the course you are on is worth continuing, or you will seriously consider changing direction. Sometimes, this transit coincides with changes at work that are completely out of an individual's hands. Restructuring can put

This is one of the most important transits that Saturn makes in its journey around your chart. One reason is that the planet is now entering the upper hemisphere of your horoscope after spending approximately 14 years below the horizon. For the last 14 years your focus has been on finding out about yourself, often at the expense of worldly acknowledgement. This is all about to change. From this point on, you will start to make an impact on others. However, not everyone is going to appreciate your new power. So be prepared for some difficulties in relationships now and over the next couple of years. Some contacts will be terminated at this time, but don't see this as a bad thing; in all likelihood they have reached the end of their purpose. Good relationships will also go through a period of testing, but will survive.

20 November 2026 01:17 EDT +04:00:00 to 4 January 2027 04:21 EDT +04:00:00, Transiting Neptune is Conjunct your Natal Moon

This may be a highly emotional period for you. Your sensitivity is more acute now than at just about any other time in your life. You will pick-up on virtually every little nuance and mood in others and the environment. You may be quite surprised at how emotional you are now. You could even find yourself spontaneously weeping over the smallest thing. There is little point trying to rationalize your feelings at the moment, because what could be churning you up comes from deep within. Instead, acknowledge your present sensitivity and try to go with the flow. If you are at all creative, this can be a wonderful transit because it charges your imagination and powers of inspiration. Your intuition is powerful now and there is the possibility you will experience premonitions. Take care, however, with regard to matters of the heart; new relationships may not be as they seem and there is a danger of being deceived and disappointed. There can be misunderstandings with women now and upsets on the home front caused through over-sensitivity. Moderation in intoxicants or stimulants is advisable.

However, as your mind is more acute and critical now, there may be a tendency for you to hold extreme views and to get into fierce arguments with others. There can be exposure to prejudice or subversion from others.

During this period, transiting Saturn is making a dynamic aspect to its natal position; hence you are again facing another turning point in your life with regard to your personal development and future direction. Essentially, this current phase of life is being brought sharply into focus - for scrutiny and review - and to an inevitable conclusion. This is now a time for determining your priorities and facing certain realities. Attempt to simplify and reduce your life to absolute basics by systematically separating from situations that are no longer relevant or sustainable. These may take the form of people, places, lifestyles, relationships, jobs, behavioral patterns and habits. Genuine sacrifices and, in some cases, separations are necessary in order to move forward. If you knowingly hold on to something or someone that may be preventing you from growing, you will risk inhibiting your personal development at many levels. Difficulties will no doubt be apparent now, but if confronted and dealt with, the long-term gains outweigh the short-term pains. Expect to lead a more modest and simple lifestyle, with the need to consolidate and economize. At this time, put reason before emotion or sentimentality. You are in the process of inner change and transition. Taking a bold step, past the point of no return, away from former structures may be required now.

During this period, you will tend to view life more positively and optimistically than usual. Expect your understanding of the world to broaden - this may be experienced through such things as long-distance travel, higher education, or simply by being more outreaching and embracing of life and others. However, there is a need to caution against extending your scope of activity beyond what you can reasonably manage - or of losing your sense of proportion and perspective. At its best, this transit brings the rewards of hard work commensurate to the amount of energy you put in. But if you simply sit around enjoying the feelings of well-being it induces, you will have little to show for it after it passes. While this can be a financially prosperous time, you would do well to guard against wasteful or extravagant tendencies. Also, it is not uncommon for some people to get a superiority complex during this transit and end up arguing with others, especially over matters of outlook or philosophy.

Your mind is not occupied with light and frivolous matters; instead, important issues need to be addressed. Possibly, you will be inclined to pessimism; certainly, if you have a tendency to worry, you will now. Try to keep a sense of humor and perspective and don't allow yourself to become gloomy. While your prospects may seem restricted now, this is only a temporary state of affairs. Other people may seem unreasonable to you now and, possibly, they may challenge or obstruct your ideas or plans. Traveling during this transit could require more effort, as there is the likelihood of delays or irritations of some sort. The positive side of this transit is that your powers of concentration and your ability to sort out your priorities are stronger than usual.

This is an essentially positive transit; however there are pitfalls to be aware of that can lessen its positive effect. Firstly, there can be a proneness to immoderate activity. Secondly, you may feel motivated to take risks that you wouldn't ordinarily take. Thirdly, you can project an over-inflated sense of your own self-importance to others. In all instances the outcomes could be an unraveling of your good efforts. Yet, if you can keep a sense of perspective, plan your moves well and remain circumspect during this period, the potential for success in any undertaking is almost certain. This is an excellent period for business matters, negotiations and for starting new projects, providing there aren't other more powerful transits from the stronger planets to contend with also. Your sense of timing is very good now and, as luck will seem to have it, you will probably conveniently find yourself in the right place at the right time. Relations with others can improve now and disputes can be sorted out. If you are sports oriented, this transit can improve your game and take you to another level of fitness.

Also, there can be the tendency to become zealous or obsessive, which can lead to arguments with others or cause you to lose sight of whom or what is important in your life. Positively, you may demonstrate a capacity for leadership and organization - an ability to step in and take charge of situations.

However, you need to be careful that you don't become coercive or fanatical, because this can create feelings of resistance in others. Negatively, this combination of planets can, in extreme circumstances, be quite destructive, so avoid accident or injury-potential environments, or provoking people that could harm you in some way.

25 October 2030 12:02 EDT +04:00:00 to 14 February 2031 12:10 EDT +04:00:00, Transiting Neptune is Square your Natal Midheaven

This can be a particularly challenging transit to endure; you can expect to vacillate over your career, direction in life and your domestic arrangements. In particular, you may feel discontented with your home and family life in some way, or unfulfilled by it. You may certainly have doubts about yourself and your overall goals in life at the moment. However, this is not the time to stray off your course, even if you are in a totally inappropriate vocation. Do not make any decisions now that could change the entire course of your life because this is not a good time to place your security at risk. What you can do, however, is to use this period to re-examine your goals and determine how meaningful they are in the overall scheme of your life. The Midheaven corresponds with your reputation; therefore guard against acting in any way that may be dishonest, as this could lead to a fall from grace. There may be instability at home or in the family. A change of residence is possible. Positively, this is a good period for looking into spiritual or metaphysical subjects and expressing any artistic or creative potential you have, especially music, dance, drama, photography or painting.

Certainly, you will be feeling more sensitive than usual and susceptible to external influences. Some people have psychic or mystical experiences at this time, while others can be inclined to substance abuse.

quick schemes", because there is a very real danger now that your ability to make financial judgments is impaired. Also, should this transit coincide with a medical concern, you could benefit from obtaining a second opinion. Positively, your inner and spiritual life is enhanced now; more so than at just about any other time. Your interest in metaphysical subjects is likely to grow now and you may experience unusual insights. If you are in any way musical, artistic or creative, you can expect your powers of inspiration and imagination to get a boost now.

11 September 2031 10:36 EDT +04:00:00 to 5 December 2031 16:35 EDT +04:00:00, Transiting Pluto is Square your Natal Uranus

Uranus and Pluto are considered to be generational planets because of their slow speed. Their influence by transit tends to be both personal and collective. This means that you will experience this transit personally and in conjunction with others born around the same year of your birth. This transit can cause feelings of unease and restlessness in you because your life is changing quickly now. The old order of things is giving way to the new and not without some disruption or upheaval. Your challenge during this period is to do the best that you can to adjust to the new conditions that are being created in your life. Positively, you have the opportunity to bring about reforms in your own life or at a social level. This combination can draw out the revolutionary in you - the person who wants to change the world - hence you may become attracted to social or political causes. However, you need to be careful that you don't become coercive or fanatical, because this can create feelings of resistance in others. Negatively, this combination of planets can, in extreme circumstances, be quite destructive, so avoid accident or injury-potential environments, or provoking people that could harm you in some way.

Matters of the heart feature strongly now. You may become the object of someone's romantic desires, or you, in turn, could be smitten with another. Established relationships, too, can go through a period of increased warmth and affection. Alternatively, romance may not feature at all at this time; instead your life becomes a whirl of social engagements or pleasure seeking activities. You may be inclined to indulge yourself and over-spend on such things as luxury items, fine clothes or beauty products. If you are artistically inclined, this can be a successful creative period for you, with your work being acknowledged and respected by others. Travel for enjoyment and pleasure is favored now, if affordable. Less positively, arguments caused by exaggerated expectations, negligence or differences of opinion can mar relationships. There can be conflicts in love.

In general, the so-called hard transits involving Jupiter are not difficult. You feel more emotionally secure and optimistic than usual and can express your feelings to others more easily. Family and domestic matters seem to go well at this time and buying or selling real-estate, or moving home is favored under this transit. Even if you don't move house or invest in property, this is an excellent time for making improvements to your home, such as alterations and redecorating. On the personal front, you can expect to relate well to people; you will seem to have an instinct for others' needs. Women, in particular, can be beneficial in your life at the moment. This is one of the best times for traveling overseas, or having visitors from far-off places come to stay.

There are opportunities for joint endeavors, which will prove to be mutually beneficial in the long run.

The two areas in your life requiring attention now are your career and domestic life, with the emphasis being on the domestic life. Home and family matters are of primary importance, and if anything needs tidying up here, such as disputes within the family, this is a good time to do it. If your family life is generally harmonious, it will seem happier now and over the next several months. Regarding buying, selling or leasing property, this is one of the best periods for these activities. Equally, any improvements or repairs you want to make to your home should be dealt with now.

Approximately every 12 years, transiting Jupiter returns to the degree of the zodiac it occupied at the time of your birth. This transit is called your "Jupiter Return". In general, the "Jupiter Return" is a very positive influence and, because of it, you can expect to feel confident and optimistic over this period. To get the most benefit from this transit, you are encouraged to view life positively and to give some consideration to your long-term goals and aims. It is now the time for planting seeds that will bear fruit over the next 12-year Jupiter cycle. Expect your understanding of the world to broaden - this may be experienced through such things as long-distance travel, higher education, or simply by being more outreaching and embracing of life and others. Essentially, this transit brings the rewards of hard work proportional to the amount of effort you put in. However, if you simply sit around enjoying the feelings of well-being it induces, you will have little to show for it in your life after it passes. Business and financial investments usually prosper under this transit, and some people actually receive sudden windfalls, but that tends to be the exception rather than the rule. All in all, the "Jupiter Return" is a fortunate transit - but it only gives back as much as you put into it.

12 February 2032 13:25 EDT +04:00:00 to 22 February 2032 05:08 EDT +04:00:00, strongest around 17 February 2032 07:49 EDT +04:00:00, Transiting Jupiter is Square your Natal Mars

This is an essentially positive transit; however there are pitfalls to be aware of that can lessen its positive effect. Firstly, there can be a proneness to immoderate activity. Secondly, you may feel motivated to take risks that you wouldn't ordinarily take. Thirdly, you can project an over-inflated sense of your own self-importance to others. In all instances the outcomes could be an unraveling of your good efforts. Yet, if you can keep a sense of perspective, plan your moves well and remain circumspect during this period, the potential for success in any undertaking is almost certain. This is an excellent period for business matters, negotiations and for starting new projects, providing there aren't other more powerful transits from the stronger planets to contend with also. Your sense of timing is very good now and, as luck will

seem to have it, you will probably conveniently find yourself in the right place at the right time. Relations with others can improve now and disputes can be sorted out. If you are sports oriented, this transit can improve your game and take you to another level of fitness.

23 February 2032 07:19 EDT +04:00:00 to 4 March 2032 15:08 EDT +04:00:00, strongest around 28 February 2032 09:01 EDT +04:00:00, Transiting Jupiter is Conjunct your Natal Pluto

At this time, you have a powerful urge to make your mark - perhaps, by whatever means necessary. This is a potent configuration, which requires careful handling because the potential for success is great, but so too is the risk of disaster if you over-estimate yourself and your abilities. By way of an illustration to the power of this planetary pairing for gain and loss some authors have referred to it as the "make a million, lose a million" aspect. Therefore proceed with caution if contemplating taking risks that are more than you can withstand. Compulsive behavior and power plays are common with this transit and you have to be very careful who you take on as an opponent. Those in positions of power, such as bosses or authority figures could make your life difficult, if you get out of your depth with them. Also, there can be the tendency to become zealous or obsessive, which can lead to arguments with others or cause you to lose sight of whom or what is important in your life. Positively, you may demonstrate a capacity for leadership and organization - an ability to step in and take charge of situations.

16 March 2032 20:46 EDT +04:00:00 to 29 March 2032 21:03 EDT +04:00:00, strongest around 23 March 2032 02:21 EDT +04:00:00, Transiting Jupiter is Conjunct your Natal Saturn

This is one of the more testing transits of Jupiter, but it is by no means unmanageable. Advancement in life at this time seems slow or cumbersome, and everything you want to achieve appears to take a lot more effort than usual. Any progress you make comes at a price and it will probably feel that life is moving along at the rate of three steps forward and two steps back. Also, there can be temporary setbacks and possible financial constraints or worries. At an inner level, you are likely to feel discontented, for no apparent reason, and your self-confidence may be temporarily dented. However, as you will discover, this state of affairs will not last for long. The best way for you to deal with things now is with patience and to persevere in your endeavors. Professionally, if your work is unsatisfying, you may decide to change jobs, but only take such a step if you have something better to go to. Buying and selling property is often successful with this transit.

20 March 2032 04:57 EDT +04:00:00 to 13 July 2032 13:31 EDT +04:00:00, Transiting Pluto is Opposition your Natal Sun

This is one of the most powerful transits you are likely to undergo in your life, in which some aspects of your life will change because they are no longer viable and sustainable. You are, in effect, undergoing a process of inner change and transformation, complete with the purging of character traits you've outgrown. The Sun in your horoscope represents your self-determination, desire for recognition and your ability to assert authority or to dominate. Pluto, the planet of transition, revitalization and regeneration, forces you to confront yourself and the status of your individuality. If, in the past, you have surrendered your power to another, especially a significant male, you will no longer be able to maintain this as a way of life. Instead, you will feel compelled to claim and assert your own power and authority. Consequently, you may experience power struggles, but these may be a necessary part of the process of re-defining yourself and establishing your autonomy. In certain circumstances, this transit can manifest as a crisis or turning point in the life of an important man in your life. For instance, a father or male partner could experience something like illness or problems at work, which impact upon you indirectly, yet still force you to make adjustments in your own life.

This transit requires that you view your emotional and romantic connections more seriously and realistically; including new affairs and established unions. You need to put your feelings to one side and coolly assess each of your relationships on their merit. You may find that some are lacking or unsatisfying. Relationships that are solid and stable will survive, but weak or rocky ones will not. Expect some difficulties in love during this period, but with patience and a cool head these will pass. This can be a time for commitment or re-commitment in love. It can also be a time of separation or loss.

This can be a trying time for you emotionally; your feelings are being kept in check by the demands of routine responsibilities, which may seem heavier than usual. Life will seem more laborious and, in general, you won't be feeling light and bubbly. Possibly, you feel that others don't understand your needs - or care - and that they are not especially supportive. Still, this is not a time for getting down-hearted. Instead, you need to look at your situation, put your feelings to one side and take whatever practical steps are necessary to move forward. Sometimes, emotional connections can be terminated at this time, which under certain conditions may be for the best. There may be difficulties with women or worries within the family. Most of all, you desire security, constancy and stability in your home and family during this period.

Expect anything to happen in your relationship or romantic life now. Of course, how much you are affected by this transit is totally dependent upon your disposition. If you are naturally an emotionally

disciplined person, you are not likely to lose your head over an emerging attraction. Likewise, if you are in a happy and stable relationship, this transit is unlikely to destabilize it. However, if you are impulsive by nature and desire adventure and excitement in your love-life, you are bound to get it now, though not necessarily in ways that you might expect. This is the classic "love at first sight" combination; however it is also associated with infatuations that form suddenly and terminate just as quickly. Therefore, do not expect permanency in love from this transit. Instead, keep yourself in the moment and enjoy it for what it most likely is - an attraction of short duration. Be aware of one important thing: if a relationship isn't in the best shape, this transit could bring it to an end. This combination is a boon to artistically creative people searching for new and original ideas and expressions.

During this transit, hold yourself open for any eventuality in your emotional, family or domestic life. Disruptions and sudden events in any or all of these areas are to be expected. In your emotional life, you are likely to feel very restless and excitable, and inclined to sudden outbursts of feeling. Your family may demand more of your time, which could cramp your style and restrict your freedom; or sudden events involving your family could force an adjustment to new conditions. Whatever your own gender, women are important to you now. You may come into contact with a dynamic and interesting woman who encourages you to think differently, or you could experience upsets and feelings of agitation through the female sex.

You are motivated now by the urge to expand your outlooks on life and broaden your horizons. You are currently well-aspected for local and international travel or higher education and intellectual work, and success in any of these areas is to be expected, providing you have done the required preparatory work. However, don't expect to succeed on the strength of this transit alone; your results will reflect your prior efforts. You will have big plans at this time; just make sure that they are reasonable and realizable. With this transit, there can be a tendency to get so wrapped up with an idea or plan that important details get overlooked or ignored. Therefore, you will benefit from listening to other people's opinions about your ideas, because they can offer constructive criticism and advice. This could be a good time to improve your career prospects, especially in areas related to communication sectors, computing, language, commerce or law.

Expect the unexpected with this transit, but don't presuppose that what you experience will necessarily be to your liking, because any transit involving Uranus is going to be unpredictable. Positively, this is a period in which sudden opportunities could present themselves and offer you the chance to break out of old routines and experience new things. For instance, you may have to suddenly contend with new conditions in your work, or you meet someone who influences you profoundly. Some people even have sudden financial windfalls or the chance to travel. Definitely, you will want to make changes for the better under this influence and you should receive plenty of signals, by way of intuitive flashes, as to how to do this. Occasionally, this transit is preceded by an intense feeling of tension which suddenly releases when it becomes exact. One word of caution, you could annoy others and consequently miss good opportunities now, if you display an intolerant attitude or contradict people for the sake of it. Legal matters are best avoided now, if possible, as their outcome is difficult to predict. In fact, if conflicts of any description do arise, it is in your best interests to try and nip them in the bud, lest they become exaggerated out of all proportion.

This can be a trying time for you emotionally; your feelings are being kept in check by the demands of routine responsibilities, which may seem heavier than usual. Life will seem more laborious and, in general, you won't be feeling light and bubbly. Possibly, you feel that others don't understand your needs - or care - and that they are not especially supportive. Still, this is not a time for getting down-hearted. Instead, you need to look at your situation, put your feelings to one side and take whatever practical steps are necessary to move forward. Sometimes, emotional connections can be terminated at this time, which under certain conditions may be for the best. There may be difficulties with women or worries within the family. Most of all, you desire security, constancy and stability in your home and family during this period.

25 January 2033 21:33 EDT +04:00:00 to 14 April 2033 15:45 EDT +04:00:00, strongest around 28 February 2033 08:29 EDT +04:00:00, Transiting Pluto is Opposition your Natal Sun

This is one of the most powerful transits you are likely to undergo in your life, in which some aspects of your life will change because they are no longer viable and sustainable. You are, in effect, undergoing a process of inner change and transformation, complete with the purging of character traits you've outgrown. The Sun in your horoscope represents your self-determination, desire for recognition and your ability to assert authority or to dominate. Pluto, the planet of transition, revitalization and regeneration, forces you to confront yourself and the status of your individuality. If, in the past, you have surrendered your power to another, especially a significant male, you will no longer be able to maintain this as a way of life. Instead, you will feel compelled to claim and assert your own power and authority. Consequently, you may experience power struggles, but these may be a necessary part of the process of re-defining yourself and establishing your autonomy. In certain circumstances, this transit can manifest as a crisis or turning point in the life of an important man in your life. For instance, a father or male partner could experience something like illness or problems at work, which impact upon you indirectly, yet still force you to make adjustments in your own life.

31 January 2033 15:59 EDT +04:00:00 to 30 March 2033 04:34 EDT +04:00:00, Transiting Saturn is Conjunct your Natal Venus

This transit requires that you view your emotional and romantic connections more seriously and realistically; including new affairs and established unions. You need to put your feelings to one side and coolly assess each of your relationships on their merit. You may find that some are lacking or unsatisfying. Relationships that are solid and stable will survive, but weak or rocky ones will not. Expect some difficulties in love during this period, but with patience and a cool head these will pass. This can be a time for commitment or re-commitment in love. It can also be a time of separation or loss.

3 February 2033 11:39 EDT +04:00:00 to 11 February 2033 21:18 EDT +04:00:00, strongest around 7 February 2033 16:23 EDT +04:00:00, Transiting Jupiter is Opposition your Natal Sun

During this period, your desire for gain, power and advantage is accentuated. You have the urge to improve your position in life. Above all, you want to better yourself and expand your horizons - which you may do through travel, higher education, financial activity or speculation. However, you must take great care to keep a sense of perspective on everything and not to over-estimate yourself or your capabilities. There is a danger that you may take on more than you can comfortably handle and risk getting out of your depth. Also, you could be prone to wastefulness and extravagance now. In extreme circumstances, some people can be prone to disproportional amounts of arrogance during this transit, and conflicts with authority figures or brushes with the law are not unheard of. This said there are definite opportunities for growth and personal development under this influence.

30 April 2033 13:59 EDT +04:00:00 to 21 October 2033 15:37 EDT +04:00:00, strongest around 1 June 2033 12:14 EDT +04:00:00 and 14 September 2033 11:28 EDT +04:00:00, Transiting Neptune is Square your Natal Jupiter

Of all the planets that Neptune can come into contact with, Jupiter is perhaps the most compatible. At their best together, Neptune and Jupiter can raise your spiritual awareness to higher levels and deepen your powers of compassion and empathy. Artistic creativity, also, can flourish under this influence - especially music, drama, dance and painting. At their worst, they can set you up for a fall by causing you to believe you can get away with just about anything. You may act on faith alone, conveniently overlooking the reality of a situation. For instance, this transit is often associated with speculation and gambling. This is one of the worst periods for pursuing risky financial ventures, because there is a danger of being duped and defrauded. Travel during this transit can be very worthwhile and uplifting; however, because of Neptune's tendency to make things appear other than they are, you should double-check all of your travel arrangements. One last word, avoid complicated legal procedures now, because you're not favored to win.

Expect anything to happen in your relationship or romantic life now. Of course, how much you are affected by this transit is totally dependent upon your disposition. If you are naturally an emotionally disciplined person, you are not likely to lose your head over an emerging attraction. Likewise, if you are in a happy and stable relationship, this transit is unlikely to destabilize it. However, if you are impulsive by nature and desire adventure and excitement in your love-life, you are bound to get it now, though not necessarily in ways that you might expect. This is the classic "love at first sight" combination; however it is also associated with infatuations that form suddenly and terminate just as quickly. Therefore, do not expect permanency in love from this transit. Instead, keep yourself in the moment and enjoy it for what it most likely is - an attraction of short duration. Be aware of one important thing: if a relationship isn't in the best shape, this transit could bring it to an end. This combination is a boon to artistically creative people searching for new and original ideas and expressions.

During this transit, hold yourself open for any eventuality in your emotional, family or domestic life. Disruptions and sudden events in any or all of these areas are to be expected. In your emotional life, you are likely to feel very restless and excitable, and inclined to sudden outbursts of feeling. Your family may demand more of your time, which could cramp your style and restrict your freedom; or sudden events involving your family could force an adjustment to new conditions. Whatever your own gender, women are important to you now. You may come into contact with a dynamic and interesting woman who encourages you to think differently, or you could experience upsets and feelings of agitation through the female sex.

10 June 2033 13:53 EDT +04:00:00 to 26 June 2033 03:52 EDT +04:00:00, strongest around 18 June 2033 10:15 EDT +04:00:00, Transiting Saturn is Square your Natal Ascendant

This is not an easy time. You are likely to feel a bit flat and low, even if you are a naturally up-beat and positive person. The environment may not be everything you'd like it to be; it may seem harsh or unsympathetic. In certain circumstances, this can coincide with a stay in hospital or contact with people who are not in the best of health or circumstances. Your relationships with other people will be tested at this time and possibly a contact will be terminated. Don't see this as a bad thing; in all likelihood the connection had reached the end of its purpose in your life. Your strong and reliable relationships will

survive this period intact. Often people have the urge to move during this transit.

This is an extremely important time in your life, but not one of your easiest periods. In fact, you may be feeling quite despondent now because success of any consequence seems to be eluding you at the moment. Vocational difficulties are possible now and there may be the feeling that you are struggling to get ahead. By the same token, if you have worked hard over the years and not compromised your own standards - especially in your career - this can be a time of achievement. You will enjoy the acknowledgement of your peers and possess the knowledge that your efforts are making a difference.

30 June 2033 22:28 EDT +04:00:00 to 14 August 2033 16:37 EDT +04:00:00, Transiting Neptune is Conjunct your Natal Mars

During this period, you can expect to experience difficulties achieving your objectives, because your energies and self-motivation are lower than usual. In fact, under this influence you will often feel quite tired and powerless. Physically, your body is unusually prone to infection at this time, so increased consideration to your health is advisable. Mars, in your horoscope, represents the force that enables you to actively go after what you want in life. It is your ego-drive, competitive spirit, willpower and vigor. Neptune, on the other hand, is associated with the sensitive, illusionary, yielding and drifting side of your nature. It also represents chaos, deception and vagueness. Under Neptune's influence, Mars cannot act decisively or effectively. Consequently, you feel weakened and ineffectual. This can lead to frustration and a misdirecting of your vital energies. This is not a good time to start a new enterprise, expand a business or take on a challenge, because you will not have the vitality required for total success. Ideally, new sexual liaisons should not be initiated now, as there is a risk of deception, unreliability and, in certain circumstances, infection. Guard against being exploited.

Even the most optimistic people in the world can expect to have their enthusiasm tested during this transit. Whatever your lifestyle, you will have to work harder for success now. This is a time for taking stock of things and cutting back. Maintain faith in your abilities, exercise patience and perseverance,

proceed with caution and soon any obstacles will be overcome. This can be a good time for business and real estate, because you will be more careful now than usual and less likely to over-stretch yourself or your budget. Money will be tighter, so take great care with investments and expenditures. This is not a particularly good time to change jobs. If you are feeling dissatisfied with your current work, taking up a new position will not alleviate the dissatisfaction. Instead, wait until the transit passes and review your circumstances then. If you are naturally impatient and restless, you will tend to view this period as restricting and frustrating. Nothing seems to happen quickly enough. Your self-confidence and optimism may seem to temporarily desert you. However, successes are possible now through hard work and self-discipline.

Take particular care with "sure bets" and "get-rich-quick schemes", because there is a very real danger now that your ability to make financial judgments is impaired. Also, should this transit coincide with a medical concern, you could benefit from obtaining a second opinion. Positively, your inner and spiritual life is enhanced now; more so than at just about any other time. You have a great wealth of feeling and compassion, coupled with a sincere desire to help those in need. Your interest in metaphysical subjects is likely to grow now and you may experience unusual insights. increased warmth and affection. Alternatively, romance may not feature at all at this time; instead your life becomes a whirl of social engagements or pleasure seeking activities. If you are artistically inclined, this can be a successful creative period for you, with your work being acknowledged and respected by others. Sometimes this transit is accompanied by an unsettling external event that rocks your foundations and forces you to make radical changes in your life. Other people or circumstances may inhibit your ability to carry on living in the manner to which you've been accustomed. For instance, you could experience financial restrictions or hardships caused through others. E.g. someone may owe you money but won't pay, or you may have debts you can't repay easily. There can be breakdowns in relationships or associations caused through irreconcilable differences. This is not a good time for getting on the wrong side of the law or shady characters. Positively, you can achieve great things of lasting value during this transit if you are prepared to work hard. This can be an excellent configuration for study and research.

This can be both an exciting and stimulating time as well as one of restlessness and excitability. Your known, familiar and regular environment is changing now, whether you like it or not. How well you adjust to this is totally dependent upon how adaptable and flexible you are by nature. Someone or something in your environment may unsettle you. For instance, there may be changes happening at work that you don't like, or changes within your intimate or family relationships that upset you. Another possibility is that you may develop a desire to move or re-locate. This transit often coincides with a significant change in residence, including changing town or country. Your personal relationships will be anything but dull now. New relationships may begin now and old ones may end. If you are in a partnership, this transit will test it. If it is strong and secure, it will undergo stresses and tensions, but survive. If, however, your relationship is shaky and in trouble, this transit could cause a break-up. A word of warning, this transit can cause accident or injury proneness, especially during states of nervous tension or unrest.

During this period, transiting Saturn is making a dynamic aspect to its natal position; hence you are again facing another turning point in your life with regard to your personal development and future direction. Essentially, this current phase of life is being brought sharply into focus - for scrutiny and review - and to an inevitable conclusion. This is now a time for determining your priorities and facing certain realities. Attempt to simplify and reduce your life to absolute basics by systematically separating from situations that are no longer relevant or sustainable. These may take the form of people, places, lifestyles, relationships, jobs, behavioral patterns and habits. Genuine sacrifices and, in some cases, separations are necessary in order to move forward. If you knowingly hold on to something or someone that may be preventing you from growing, you will risk inhibiting your personal development at many levels. Difficulties will no doubt be apparent now, but if confronted and dealt with, the long-term gains outweigh the short-term pains. Expect to lead a more modest and simple lifestyle, with the need to consolidate and economize. At this time, put reason before emotion or sentimentality. You are in the process of inner change and transition. Taking a bold step, past the point of no return, away from former structures may be required now.

24 August 2034 15:36 EDT +04:00:00 to 9 December 2034 02:45 EDT +04:00:00, strongest around 26 September 2034 19:50 EDT +04:00:00 and 4 November 2034 19:22 EDT +04:00:00, Transiting Uranus is Conjunct your Natal Midheaven

The Midheaven in your horoscope is connected to your career and reputation. The arrival of Uranus - the planet of change, reform and sudden disruptions - to this sensitive point could affect both of these areas to some extent. Firstly, you may decide to change your career and take off in a new direction. If you don't actually change your work, you may have to adapt to changes occurring within it. Things are moving quickly now and, in order to stay ahead of the game, you have to be ready for any eventuality. This can be an excellent time for up-skilling in your work and for keeping abreast of technological advancements. Secondly, your actions need to be above reproach now, because you could put your reputation on the line if you do anything dishonorable. Some people can suffer a fall from grace and setbacks as a consequence of rash or ill-considered actions during this transit.

2 September 2034 09:06 EDT +04:00:00 to 21 November 2034 02:36 EDT +04:00:00, strongest around 12 October 2034 17:58 EDT +04:00:00, Transiting Neptune is Conjunct your Natal Mars

During this period, you can expect to experience difficulties achieving your objectives, because your energies and self-motivation are lower than usual. In fact, under this influence you will often feel quite tired and powerless. Physically, your body is unusually prone to infection at this time, so increased consideration to your health is advisable. Mars, in your horoscope, represents the force that enables you to actively go after what you want in life. It is your ego-drive, competitive spirit, willpower and vigor. Neptune, on the other hand, is associated with the sensitive, illusionary, yielding and drifting side of your nature. It also represents chaos, deception and vagueness. Under Neptune's influence, Mars cannot act decisively or effectively. Consequently, you feel weakened and ineffectual. This can lead to frustration and a misdirecting of your vital energies. This is not a good time to start a new enterprise, expand a business or take on a challenge, because you will not have the vitality required for total success. Ideally, new sexual liaisons should not be initiated now, as there is a risk of deception, unreliability and, in certain circumstances, infection. Guard against being exploited.

5 September 2034 15:06 EDT +04:00:00 to 19 December 2034 22:56 EDT +04:00:00, Transiting Pluto is Opposition your Natal Sun

This is one of the most powerful transits you are likely to undergo in your life, in which some aspects of your life will change because they are no longer viable and sustainable. You are, in effect, undergoing a process of inner change and transformation, complete with the purging of character traits you've outgrown. The Sun in your horoscope represents your self-determination, desire for recognition and your ability to assert authority or to dominate. Pluto, the planet of transition, revitalization and regeneration, forces you to confront yourself and the status of your individuality. If, in the past, you have surrendered your power to another, especially a significant male, you will no longer be able to maintain this as a way of life. Instead, you will feel compelled to claim and assert your own power and authority. Consequently, you may experience power struggles, but these may be a necessary part of the process of re-defining yourself and establishing your autonomy. In certain circumstances, this transit can manifest as a crisis or turning point in the life of an important man in your life. For instance, a father or male partner could experience something like illness or problems at work, which impact upon you indirectly, yet still force you to make adjustments in your own life.

12 September 2034 11:30 EDT +04:00:00 to 28 September 2034 06:01 EDT +04:00:00, strongest around 20 September 2034 15:15 EDT +04:00:00, Transiting Jupiter is Square your Natal Midheaven

At this time, you have the potential to make progress in your career or in some other area of personal significance. By displaying a confident and optimistic attitude, you attract the attention of those who can help you advance in life. If other factors support it, you may receive some form of acknowledgement in your profession, e.g. a promotion or pay rise. Whatever your character, you are likely to feel more ambitious than usual now. However, you need to take care that you don't over-estimate yourself or your abilities, because getting out of depth could lead to a reversal of fortune.

23 September 2034 22:01 EDT +04:00:00 to 8 October 2034 22:02 EDT +04:00:00, strongest around 1 October 2034 10:14 EDT +04:00:00, Transiting Jupiter is Opposition your Natal Ascendant

During this period, your personal and professional relationships should take a noticeable turn for the better. You are more open to the influence of others now and people will seem favorably disposed towards you. There are opportunities for joint endeavors, which will prove to be mutually beneficial in the long run. If other factors in your chart support it, you could establish an important personal relationship under this influence.

5 October 2034 05:20 EDT +04:00:00 to 29 December 2034 00:58 EDT +04:00:00, strongest around 21 October 2034 23:07 EDT +04:00:00 and 11 December 2034 19:56 EDT +04:00:00, Transiting Saturn is Conjunct your Natal Mercury

During this period, your thinking is more serious or solemn than usual and your mind is occupied with weighty and important matters. Possibly, you will be inclined to pessimism; certainly, if you have a tendency to worry, you will now. Try to keep a sense of humor and perspective and don't allow yourself to become gloomy. While your prospects may seem restricted now, this is only a temporary state of affairs. The positive side of this transit is that your powers of concentration and your ability to sort out your priorities are stronger than usual. You have the ability to come straight to the heart of important matters and to stick to the point of anything under consideration. You may doubt your intellectual capabilities and experience some communication difficulties now. Traveling during this transit could require more effort, as there is the likelihood of delays or irritations of some sort.

2 November 2034 13:09 EDT +04:00:00 to 24 February 2035 07:26 EDT +04:00:00, Transiting Neptune is Square your Natal Jupiter

Of all the planets that Neptune can come into contact with, Jupiter is perhaps the most compatible. At their best together, Neptune and Jupiter can raise your spiritual awareness to higher levels and deepen your powers of compassion and empathy. Artistic creativity, also, can flourish under this influence - especially music, drama, dance and painting. At their worst, they can set you up for a fall by causing you to believe you can get away with just about anything. You may act on faith alone, conveniently overlooking the reality of a situation. For instance, this transit is often associated with speculation and gambling. This is one of the worst periods for pursuing risky financial ventures, because there is a danger of being duped and defrauded. Travel during this transit can be very worthwhile and uplifting; however, because of Neptune's tendency to make things appear other than they are, you should double-check all of your travel arrangements. One last word, avoid complicated legal procedures now, because you're not favored to win.

22 November 2034 15:34 EDT +04:00:00 to 12 January 2035 00:14 EDT +04:00:00, strongest around 19 December 2034 13:59 EDT +04:00:00, Transiting Uranus is Square your Natal Ascendant

This can be both an exciting and stimulating time as well as one of restlessness and excitability. Your known, familiar and regular environment is changing now, whether you like it or not. How well you adjust to this is totally dependent upon how adaptable and flexible you are by nature. Someone or something in your environment may unsettle you. For instance, there may be changes happening at work that you don't like, or changes within your intimate or family relationships that upset you. Another possibility is that you may develop a desire to move or re-locate. This transit often coincides with a significant change in residence, including changing town or country. Your personal relationships will be anything but dull now. New relationships may begin now and old ones may end. If you are in a partnership, this transit will test it. If it is strong and secure, it will undergo stresses and tensions, but survive. If, however, your relationship is shaky and in trouble, this transit could cause a break-up. A word of warning, this transit can cause accident or injury proneness, especially during states of nervous tension or unrest.

17 January 2035 12:39 EDT +04:00:00 to 29 January 2035 20:01 EDT +04:00:00, strongest around 23 January 2035 22:07 EDT +04:00:00, Transiting Jupiter is Opposition your Natal Ascendant

At this time, you have the potential to make progress in your career or in some other area of personal significance. By displaying a confident and optimistic attitude, you attract the attention of those who can help you advance in life. If other factors support it, you may receive some form of acknowledgement in your profession, e.g. a promotion or pay rise. Whatever your character, you are likely to feel more ambitious than usual now. However, you need to take care that you don't over-estimate yourself or your abilities, because getting out of depth could lead to a reversal of fortune.

7 February 2035 03:54 EDT +04:00:00 to 10 April 2035 12:12 EDT +04:00:00, strongest around 14 March 2035 04:15 EDT +04:00:00, Transiting Neptune is Conjunct your Natal Mars

During this period, you can expect to experience difficulties achieving your objectives, because your energies and self-motivation are lower than usual. In fact, under this influence you will often feel quite tired and powerless. Physically, your body is unusually prone to infection at this time, so increased consideration to your health is advisable. Mars, in your horoscope, represents the force that enables you to actively go after what you want in life. It is your ego-drive, competitive spirit, willpower and vigor. Under Neptune's influence, Mars cannot act decisively or effectively. Consequently, you feel weakened and ineffectual. This can lead to frustration and a misdirecting of your vital energies. This is not a good time to start a new enterprise, expand a business or take on a challenge, because you will not have the vitality required for total success. Ideally, new sexual liaisons should not be initiated now, as there is a risk of deception, unreliability and, in certain circumstances, infection. Guard against being exploited.

11 March 2035 21:27 EDT +04:00:00 to 20 March 2035 13:03 EDT +04:00:00, strongest around 16 March 2035 05:52 EDT +04:00:00, Transiting Jupiter is Square your Natal Jupiter

During this period, you will tend to view life more positively and optimistically than usual. Expect your understanding of the world to broaden - this may be experienced through such things as long-distance travel, higher education, or simply by being more outreaching and embracing of life and others. However, there is a need to caution against extending your scope of activity beyond what you can reasonably manage - or of losing your sense of proportion and perspective. At its best, this transit brings the rewards of hard work commensurate to the amount of energy you put in. But if you simply sit around enjoying the feelings of well-being it induces, you will have little to show for it after it passes. While this can be a financially prosperous time, you would do well to guard against wasteful or extravagant tendencies. Also, it is not uncommon for some people to get a superiority complex during this transit and end up arguing with others, especially over matters of outlook or philosophy.

18 March 2035 16:33 EDT +04:00:00 to 27 March 2035 04:51 EDT +04:00:00, strongest around 22 March 2035 23:09 EDT +04:00:00, Transiting Jupiter is Conjunct your Natal Mars

During this period, you have the capability to achieve a lot if you put your mind to it. You have increased energy, coupled with a strong desire to accomplish great things. You are motivated by the urge to live life as fully and productively as you can, because you have more drive and determination than usual now. This is an excellent business period, or time for initiating enterprises and starting new projects. It is also one of the best transits possible for making decisions and negotiating deals in your favor. Truly, it is the combination of the successful manager or entrepreneur. The only thing you need to be aware of is a tendency to take on more than you can comfortably handle or to over-estimate your physical powers. If you are sports oriented, this transit can improve your game and take you to another level of fitness. The main feature of this transit is "successful action". Take advantage of it, as it only comes around once every 12 years.

28 March 2035 03:04 EDT +04:00:00 to 5 April 2035 12:09 EDT +04:00:00, strongest around 1 April 2035 07:52 EDT +04:00:00, Transiting Jupiter is Square your Natal Pluto

During this period, you will be aware of a pronounced desire to assert yourself and to get ahead in life - even if it pitches you against the expectations and beliefs of others. Compulsive behavior and power plays are common with this transit and you have to be very careful who you take on as an opponent. Those in positions of power, such as bosses or authority figures could make your life difficult if you get out of your depth with them. In extreme circumstances, if you over-estimate yourself or display excessive arrogance, the consequences won't be to your liking. Also, there can be the tendency to become zealous or obsessive, which can lead to arguments with others or cause you to lose sight of

whom or what is important in your life. Positively, you may demonstrate a capacity for leadership and organization - an ability to step in and take charge of situations.

14 April 2035 11:59 EDT +04:00:00 to 22 April 2035 19:29 EDT +04:00:00, strongest around 18 April 2035 15:40 EDT +04:00:00, Transiting Jupiter is Square your Natal Saturn

This is one of the more testing transits of Jupiter, but it is by no means unmanageable. Advancement in life at this time seems slow or cumbersome, and everything you want to achieve appears to take a lot more effort than usual. Any progress you make comes at a price and it will probably feel that life is moving along at the rate of three steps forward and two steps back. Also, there can be temporary setbacks and possible financial constraints or worries. At an inner level, you are likely to feel discontented, for no apparent reason, and your self-confidence may be temporarily dented. However, as you will discover, this state of affairs will not last for long. The best way for you to deal with things now is with patience and to persevere in your endeavors. Professionally, if your work is unsatisfying, you may decide to change jobs, but only take such a step if you have something better to go to. Buying and selling property is often successful with this transit, providing you don't over-extend yourself financially.

At this time, you have the inclination to delve deeply into - and to explore - the inner or spiritual dimensions of your life, and to occupy your mind with unusual areas or problems. Anticipate an increasing interest in mysticism coupled with intense soul - or emotional - experiences. Expect deep and profound inner transformations. Alternatively, there can be states of confusion and the inability to clearly interpret the experiences and insights gained instinctively. At times, you may feel that you don't quite belong or fit in with those around you.

15 May 2035 15:23 EDT +04:00:00 to 24 May 2035 08:55 EDT +04:00:00, strongest around 19 May 2035 23:29 EDT +04:00:00, Transiting Jupiter is Square your Natal Mercury

You are motivated now by the urge to expand your outlooks on life and broaden your horizons. You are currently well-aspected for local and international travel or higher education and intellectual work, and success in any of these areas is to be expected, providing you have done the required preparatory work. However, don't expect to succeed on the strength of this transit alone; your results will reflect your prior efforts. You will have big plans at this time; just make sure that they are reasonable and realizable. With this transit, there can be a tendency to get so wrapped up with an idea or plan that important details get

overlooked or ignored. Therefore, you will benefit from listening to other people's opinions about your ideas, because they can offer constructive criticism and advice. This could be a good time to improve your career prospects, especially in areas related to communication, computing, language, commerce or law.

Things are moving quickly now and, in order to stay ahead of the game, you have to be ready for any eventuality. Expect the unexpected with this transit, but don't presuppose that what you experience will necessarily be to your liking, because any transit involving Uranus is going to be unpredictable. Positively, this is a period in which sudden opportunities could present themselves and offer you the chance to break out of old routines and experience new things. For instance, you may have to suddenly contend with new conditions in your work, or you meet someone who influences you profoundly. Some people even have sudden financial windfalls or the chance to travel. Definitely, you will want to make changes for the better under this influence and you should receive plenty of signals, by way of intuitive flashes, as to how to do this. Occasionally, this transit is preceded by an intense feeling of tension which suddenly releases when it becomes exact. One word of caution, you could annoy others and consequently miss good opportunities now, if you display an intolerant attitude or contradict people for the sake of it. Legal matters are best avoided now, if possible, as their outcome is difficult to predict. In fact, if conflicts of any description do arise, it is in your best interests to try and nip them in the bud, lest they become exaggerated out of all proportion.

However, you must take great care to keep a sense of perspective on everything and not to over-estimate yourself or your capabilities. There is a danger that you may take on more than you can comfortably handle and risk getting out of your depth. Also, you could be prone to wastefulness and extravagance now.

This can be an especially tense and stressful time for you, with your nerves being stretched to their limits. It may seem that others or circumstances are preventing you from doing whatever you want to do. Just about every assertion of your independence meets resistance. Under certain circumstances, you may have to battle against restrictive forces such as authority figures or bureaucratic red tape in order to move forward. However, this does not include breaking the laws of the land or moral codes, because you'll only get caught. You may want to break out of old patterns and have new experiences, but something holds you back. It could be a fear of stepping outside of your safety zone, or it could be someone wanting to keep you in check for some reason. You can be unusually reactive at this time and prone to sudden and unexpected outbursts. You need to watch your stress levels, as too much stress now could negatively impact on your health. Also, guard against accident or injury proneness.

People in authority, or those who can assist you to get ahead, seem to put obstacles in your path and cause you difficulties. Yet, there is much you can achieve of lasting value at this time; it just takes longer than usual to manifest. The key to success now is to maintain focus, keep a sense of reality and, most importantly, plan all of your moves carefully and strategically. Remember your responsibilities, keep a cool head and do not scatter your energies over too many projects. And, whatever your age, watch your general health, but more particularly if you are older. In certain circumstances, estrangements or separations can occur.

Under Neptune's influence, Mars cannot act decisively or effectively. Consequently, you feel weakened and ineffectual. This can lead to frustration and a misdirecting of your vital energies. This is not a good time to start a new enterprise, expand a business or take on a challenge, because you will not have the vitality required for total success. Remember your responsibilities, keep a cool head and do not scatter your energies over too many projects. And, whatever your age, watch your general health, but more particularly if you are older. In certain circumstances, estrangements or separations can occur.

At this time, you have the inclination to delve deeply into - and to explore - the inner or spiritual dimensions of your life, and to occupy your mind with unusual areas or problems. Anticipate an increasing interest in mysticism coupled with intense soul - or emotional - experiences. Expect deep and profound inner transformations. Alternatively, there can be states of confusion and the inability to clearly

interpret the experiences and insights gained instinctively. At times, you may feel that you don't quite belong or fit in with those around you.

16 February 2036 09:50 EDT +04:00:00 to 18 April 2036 06:17 EDT +04:00:00, Transiting Uranus is Conjunct your Natal Midheaven

The Midheaven in your horoscope is connected to your career and reputation. The arrival of Uranus - the planet of change, reform and sudden disruptions - to this sensitive point could affect both of these areas to some extent. Firstly, you may decide to change your career and take off in a new direction. If you don't actually change your work, you may have to adapt to changes occurring within it. Things are moving quickly now and, in order to stay ahead of the game, you have to be ready for any eventuality. This can be an excellent time for up-skilling in your work and for keeping abreast of technological advancements. Secondly, your actions need to be above reproach now, because you could put your reputation on the line if you do anything dishonorable. Some people can suffer a fall from grace and setbacks as a consequence of rash or ill-considered actions during this transit.

23 February 2036 00:26 EDT +04:00:00 to 6 March 2036 14:24 EDT +04:00:00, strongest around 29 February 2036 13:30 EDT +04:00:00, Transiting Jupiter is Square your Natal Sun

During this period, your desire for gain, power and advantage is accentuated. You have the urge to improve your position in life. Above all, you want to better yourself and expand your horizons - which you may do through travel, higher education, financial activity or speculation. However, you must take great care to keep a sense of perspective on everything and not to over-estimate yourself or your capabilities. There is a danger that you may take on more than you can comfortably handle and risk getting out of your depth. Also, you could be prone to wastefulness and extravagance now.

2 June 2036 19:10 EDT +04:00:00 to 24 June 2036 02:10 EDT +04:00:00, strongest around 14 June 2036 02:09 EDT +04:00:00, Transiting Saturn is Conjunct your Natal Sun

This can be a trying and discouraging time in your life, if you allow it. Your vitality is lower than usual and just about everything you try to do is met with delays and obstructions. People in authority, or those who can assist you to get ahead, seem to put obstacles in your path and cause you difficulties. Yet, there is much you can achieve of lasting value at this time; it just takes longer than usual to manifest. The key to success now is to maintain focus, keep a sense of reality and, most importantly, plan all of your moves carefully and strategically. Remember your responsibilities, keep a cool head and do not scatter your energies over too many projects. And, whatever your age, watch your general health, but more particularly if you are older. In certain circumstances, estrangements or separations can occur.

16 June 2036 07:07 EDT +04:00:00 to 12 September 2036 10:51 EDT +04:00:00, Transiting Neptune is Square your Natal Saturn

This can be a very trying transit. It can affect your physical health or your emotional and psychological well-being. Saturn, the planet that represents the structures and boundaries that you create in order to function effectively in life, is quite different in character to Neptune, the planet of no boundaries and limitless possibilities. Neptune's purpose in this combination is to change your concept of reality and show you another dimension of yourself. Thus, you will need to be very flexible and adaptable to appreciate this process. Most people, however, find the experience confusing and unsettling, even depressing. This is understandable because the process of letting go of a safe and familiar reality usually creates feelings of insecurity and vulnerability. The best way to deal with this transit is to stay calm, be patient and to avoid making radical life-changing decisions. This is not the time to let everything slide; you need to keep on top of your everyday life as much as possible. There are still bills to pay and obligations to meet. Instead, this is ideally a time for quiet introspection and meditation, out of which

will spring new insights and self-realizations. As much as possible, surround yourself with positive and uplifting people, and avoid the company of draining or negative persons. Physically, it is important to take care of your general health during this period. In some cases, illnesses can surface at this time, some of which are difficult to immediately diagnose.

6 August 2036 07:55 EDT +04:00:00 to 18 August 2036 07:59 EDT +04:00:00, strongest around 12 August 2036 03:22 EDT +04:00:00, Transiting Jupiter is Square your Natal Neptune

At this time, you are especially susceptible or vulnerable to external influences. You are at risk from viewing life and others through "rose-tinted glasses". Take particular care with "sure bets" and "get-rich-quick schemes", because there is a very real danger now that your ability to make financial judgments is impaired. Also, should this transit coincide with a medical concern, you could benefit from obtaining a second opinion. Positively, your inner and spiritual life is enhanced now; more so than at just about any other time. Your interest in metaphysical subjects is likely to grow now and you may experience unusual insights. If you are in any way musical, artistic or creative, you can expect your powers of inspiration and imagination to get a boost now.

1 September 2036 22:30 EDT +04:00:00 to 18 December 2036 08:01 EDT +04:00:00, strongest around 3 October 2036 21:59 EDT +04:00:00 and 15 November 2036 03:38 EDT +04:00:00, Transiting Uranus is Opposition your Natal Jupiter

A fundamental principle of this combination is the desire for freedom and independence. You will tend to buck against anything or anyone that compromises your ability to live by your own rules and standards. Hence, this period can be marked with disputes over outlook and philosophy. In certain circumstances, there can be legal conflicts. Generally, though, this is a fortunate transit; it can bring you into contact with important people, present you with sudden opportunities and expand your horizons through such things as travel and higher education. You could even achieve unexpected recognition during this period. Generally, the expectation many people have of this transit is that it will bring them sudden luck - usually financial - however, experience shows that there is no way of knowing if the luck is good or bad. There is a sense of anticipation with this combination, but it is advisable not to be unrealistic. This is the configuration of the gambler or entrepreneur, and while there may be opportunities to make or lose money now, it is better to err on the side of caution.

This is a very pleasant transit and, as it only comes into your life approximately once every 12 years, you want to take as much advantage of it while you can! As both Jupiter and Venus are acknowledged by astrologers to be the two most beneficial planets in the horoscope, their pairing is considered to be especially propitious. Expect to feel happy and in harmony with yourself and others at this time. Your social life will become a whirl of activity as you find yourself in increasing demand, or you may arrange a greater number of social occasions than usual. Romantic affairs are particularly well-aspected under this transit. Any new romances started now will fare very well and existing relationships will seem happier than normal. Your appreciation of the arts is enhanced now and, if you're inclined to invest in artistic projects or works, the outcome should prove to be quite prosperous. Also, if you are artistic, this is an excellent time to exhibit your work and become known. About the worst effect of this transit is a possibility of over-indulgence.

In general, the so-called hard transits involving Jupiter are not difficult. You feel more emotionally secure and optimistic than usual and can express your feelings to others more easily. Family and domestic matters seem to go well at this time and buying or selling real-estate, or moving home is favored under this transit. Even if you don't move house or invest in property, this is an excellent time for making improvements to your home, such as alterations and redecorating. On the personal front, you can expect to relate well to people; you will seem to have an instinct for others' needs. Women, in particular, can be beneficial in your life at the moment. This is one of the best times for traveling overseas, or having visitors from far-off places come to stay.

28 June 2037 14:36 EDT +04:00:00 to 7 July 2037 10:00 EDT +04:00:00, strongest around 3 July 2037 00:13 EDT +04:00:00, Transiting Jupiter is Square your Natal Ascendant

During this period, your personal and professional relationships should take a noticeable turn for the better; however you will need to be adaptable with others in order to get the best results. You are more open to the influence of others now, and people will seem favorably disposed towards you. There are opportunities for joint endeavors, which will prove to be mutually beneficial in the long run.

4 July 2037 21:13 EDT +04:00:00 to 13 July 2037 17:25 EDT +04:00:00, strongest around 9 July 2037 07:07 EDT +04:00:00, Transiting Jupiter is Conjunct your Natal Midheaven

This is one of the most positive contacts Jupiter will make on its journey around your horoscope. You are reaching a peak of sorts in some sphere of your life - most likely your career or some other area of personal significance. Anticipate professional success of some measure, perhaps even a promotion. This is an excellent time for expanding a business, if you own one, or for seeking new employment. If you are due for any form of acknowledgement, it will come now and in the months following. An increase in your status is highly likely now. On the personal front, you may form a connection with someone special.

13 July 2037 20:48 EDT +04:00:00 to 17 August 2037 05:39 EDT +04:00:00, strongest around 30 July 2037 12:13 EDT +04:00:00, Transiting Uranus is Square your Natal Mars

This can be a potentially unpredictable planetary combination. It is inherently volatile, but it is difficult to say just how constructive or destructive it may be. Some people simply experience it as a period of fluctuating energy levels, while others find themselves taking physical risks that they wouldn't normally consider. Still others experience sudden arguments and conflicts, especially if they feel that they are being forced to do things against their will. In extreme cases, some people have the misfortune to experience accidents and injuries. All of these are possible, but a lot depends on your essential nature. If

you are a naturally aggressive and angry person, you are not going to readily yield to another's demands, so you will tend to have a period of arguments and disputes. If you are naturally reactive, you could experience physical fights or accidents. However, if you are normally calm and easy-going, you will probably only feel restless and impatient.

15 August 2037 01:33 EDT +04:00:00 to 25 August 2037 01:45 EDT +04:00:00, strongest around 20 August 2037 00:01 EDT +04:00:00, Transiting Jupiter is Opposition your Natal Jupiter

During this period, you will tend to view life more positively and optimistically than usual. Expect your understanding of the world to broaden - this may be experienced through such things as long-distance travel, higher education, or simply by being more outreaching and embracing of life and others. However, there is a need to caution against extending your scope of activity beyond what you can reasonably manage - or of losing your sense of proportion and perspective. At its best, this transit brings the rewards of hard work commensurate to the amount of energy you put in. But if you simply sit around enjoying the feelings of well-being it induces, you will have little to show for it after it passes. While this can be a financially prosperous time, you would do well to guard against wasteful or extravagant tendencies. Also, it is not uncommon for some people to get a superiority complex during this transit and end up arguing with others, especially over matters of outlook or philosophy.

21 August 2037 09:58 EDT +04:00:00 to 10 January 2038 18:29 EDT +04:00:00, strongest around 12 September 2037 05:23 EDT +04:00:00 and 17 December 2037 11:09 EDT +04:00:00, Transiting Uranus is Opposition your Natal Pluto

The fundamental effect of this transit is to transform your life. During this period, you become increasingly aware of the need to make significant changes in specific areas of your life. Old patterns of behavior, or situations you have been putting up with for longer than is good for you, will be the main targets of this transit. You are encouraged to let go of the old, and to establish new conditions of living for yourself, which are more in keeping with your current needs. If you are the sort of person who welcomes change, this will be a stimulating and exciting period for you, with many doors opening. However, if you resist letting go of whatever has outlived its purpose, this can be a time of intense pressure and anxiety. A change of place or locality is possible now.

22 August 2037 20:39 EDT +04:00:00 to 2 September 2037 08:46 EDT +04:00:00, strongest around 28 August 2037 00:31 EDT +04:00:00, Transiting Jupiter is Square your Natal Mars

This is an essentially positive transit; however there are pitfalls to be aware of that can lessen its positive effect. Firstly, there can be a proneness to immoderate activity. Secondly, you may feel motivated to take risks that you wouldn't ordinarily take. Thirdly, you can project an over-inflated sense of your own self-importance to others. In all instances the outcomes could be an unraveling of your good efforts. Yet, if you can keep a sense of perspective, plan your moves well and remain circumspect during this period, the potential for success in any undertaking is almost certain. This is an excellent period for business matters, negotiations and for starting new projects, providing there aren't other more powerful transits from the stronger planets to contend with also. Your sense of timing is very good now and, as luck will seem to have it, you will probably conveniently find yourself in the right place at the right time. Relations with others can improve now and disputes can be sorted out. If you are sports oriented, this transit can improve your game and take you to another level of fitness.

3 September 2037 13:36 EDT +04:00:00 to 15 September 2037 03:13 EDT +04:00:00, strongest around 9 September 2037 04:40 EDT +04:00:00, Transiting Jupiter is Opposition your Natal Pluto

During this period, you will be aware of a pronounced desire to assert yourself and to get ahead in life -

even if it pitches you against the expectations and beliefs of others. You will have strong ambitions at this time, but you need to keep things in perspective; otherwise you could cross swords with people that, for whatever reason, want to keep you in line. Compulsive behavior and power plays are common with this transit and you have to be very careful who you take on as an opponent. Those in positions of power, such as bosses or authority figures could make your life difficult if you get out of your depth with them. In extreme circumstances, if you over-estimate yourself or display excessive arrogance, the consequences won't be to your liking. Also, there can be the tendency to become zealous or obsessive, which can lead to arguments with others or cause you to lose sight of whom or what is important in your life. Positively, you may demonstrate a capacity for leadership and organization - an ability to step in and take charge of situations.

25 September 2037 20:01 EDT +04:00:00 to 23 December 2037 05:02 EDT +04:00:00, strongest around 1 November 2037 15:12 EDT +04:00:00, Transiting Neptune is Square your Natal Saturn

As much as possible, surround yourself with positive and uplifting people, and avoid the company of draining or negative persons. Physically, it is important to take care of your general health during this period. In some cases, illnesses can surface at this time, some of which are difficult to immediately diagnose.

This is one of the more testing transits of Jupiter, but it is by no means unmanageable. Advancement in life at this time seems slow or cumbersome, and everything you want to achieve appears to take a lot more effort than usual. Any progress you make comes at a price and it will probably feel that life is moving along at the rate of three steps forward and two steps back. Also, there can be temporary setbacks and possible financial constraints or worries. At an inner level, you are likely to feel discontented, for no apparent reason, and your self-confidence may be temporarily dented. However, as you will discover, this state of affairs will not last for long. The best way for you to deal with things now is with patience and to persevere in your endeavors. Professionally, if your work is unsatisfying, you may decide to change jobs, but only take such a step if you have something better to go to. Buying and selling property is often successful with this transit, providing you don't over-extend yourself financially.

22 February 2038 20:52 EDT +04:00:00 to 5 April 2038 14:20 EDT +04:00:00, Transiting Jupiter is Opposition your Natal Jupiter

During this period, you will tend to view life more positively and optimistically than usual. Expect your understanding of the world to broaden - this may be experienced through such things as long-distance travel, higher education, or simply by being more outreaching and embracing of life and others. However, there is a need to caution against extending your scope of activity beyond what you can reasonably manage - or of losing your sense of proportion and perspective. At its best, this transit brings the rewards of hard work commensurate to the amount of energy you put in. But if you simply sit around enjoying the feelings of well-being it induces, you will have little to show for it after it passes. While this can be a financially prosperous time, you would do well to guard against wasteful or extravagant tendencies. Also, it is not uncommon for some people to get a superiority complex during this transit and end up arguing with others, especially over matters of outlook or philosophy.

28 February 2038 09:20 EDT +04:00:00 to 24 April 2038 10:50 EDT +04:00:00, Transiting Uranus is Opposition your Natal Jupiter

A fundamental principle of this combination is the desire for freedom and independence. You will tend to buck against anything or anyone that compromises your ability to live by your own rules and standards. Hence, this period can be marked with disputes over outlook and philosophy. In certain circumstances, there can be legal conflicts. Generally, though, this is a fortunate transit; it can bring you into contact with important people, present you with sudden opportunities and expand your horizons through such things as travel and higher education. You could even achieve unexpected recognition during this period. Generally, the expectation many people have of this transit is that it will bring them sudden luck - usually financial - however, experience shows that there is no way of knowing if the luck is good or bad. There is a sense of anticipation with this combination, but it is advisable not to be unrealistic. This is the configuration of the gambler or entrepreneur, and while there may be opportunities to make or lose money now, it is better to err on the side of caution.

This is an essentially positive transit; however there are pitfalls to be aware of that can lessen its positive effect. Firstly, there can be a proneness to immoderate activity. Secondly, you may feel motivated to take risks that you wouldn't ordinarily take. Thirdly, you can project an over-inflated sense of your own self-importance to others. In all instances the outcomes could be an unraveling of your good efforts. Yet, if you can keep a sense of perspective, plan your moves well and remain circumspect during this period, the potential for success in any undertaking is almost certain. This is an excellent period for business matters, negotiations and for starting new projects, providing there aren't other more powerful transits from the stronger planets to contend with also. Your sense of timing is very good now and, as luck will seem to have it, you will probably conveniently find yourself in the right place at the right time. Relations with others can improve now and disputes can be sorted out. If you are sports oriented, this transit can improve your game and take you to another level of fitness.

During this period, you will be aware of a pronounced desire to assert yourself and to get ahead in life - even if it pitches you against the expectations and beliefs of others. You will have strong ambitions at this time, but you need to keep things in perspective; otherwise you could cross swords with people that, for whatever reason, want to keep you in line. Compulsive behavior and power plays are common with this transit and you have to be very careful who you take on as an opponent. Those in positions of power, such as bosses or authority figures could make your life difficult if you get out of your depth with them. In extreme circumstances, if you over-estimate yourself or display excessive arrogance, the consequences won't be to your liking. Also, there can be the tendency to become zealous or obsessive, which can lead to arguments with others or cause you to lose sight of whom or what is important in your life. Positively, you may demonstrate a capacity for leadership and organization - an ability to step in and take charge of situations.

This is one of the more testing transits of Jupiter, but it is by no means unmanageable. Advancement in life at this time seems slow or cumbersome, and everything you want to achieve appears to take a lot more effort than usual. Any progress you make comes at a price and it will probably feel that life is moving along at the rate of three steps forward and two steps back. Also, there can be temporary setbacks and possible financial constraints or worries. At an inner level, you are likely to feel discontented, for no apparent reason, and your self-confidence may be temporarily dented. However, as you will discover, this state of affairs will not last for long. The best way for you to deal with things now is with patience and to persevere in your endeavors. Professionally, if your work is unsatisfying, you may decide to change jobs, but only take such a step if you have something better to go to. Buying and selling property is often successful with this transit, providing you don't over-extend yourself financially.

You are encouraged to let go of the old, and to establish new conditions of living for yourself, which are more in keeping with your current needs. If you are the sort of person who welcomes change, this will be a stimulating and exciting period for you, with many doors opening.

However, if you resist letting go of whatever has outlived its purpose, this can be a time of intense pressure and anxiety. A change of place or locality is possible now.

Business deals and negotiations are especially successful now, but do take care with legal documents and contracts etc - double-check everything! Your ability to communicate is enhanced now and you can make the most of this period by getting in touch with others, net-working or embarking upon some form of learning or study. Your thinking may also lean to the philosophical or religious side of life and you will possibly use this period to seek answers to life's more profound questions. Difficulties that can manifest with this transit, are that you become so wrapped up with the big picture that you overlook important details or gloss over the fine print.

Expect the unexpected with this transit, but don't presuppose that what you experience will necessarily be to your liking, because any transit involving Uranus is going to be unpredictable. Positively, this is a period in which sudden opportunities could present themselves and offer you the chance to break out of old routines and experience new things. For instance, you may have to suddenly contend with new conditions in your work, or you meet someone who influences you profoundly. Some people even have sudden financial windfalls or the chance to travel. Definitely, you will want to make changes for the better under this influence and you should receive plenty of signals, by way of intuitive flashes, as to how to do this. Occasionally, this transit is preceded by an intense feeling of tension which suddenly releases when it becomes exact. One word of caution, you could annoy others and consequently miss good opportunities now, if you display an intolerant attitude or contradict people for the sake of it. Legal matters are best avoided now, if possible, as their outcome is difficult to predict. In fact, if conflicts of any description do arise, it is in your best interests to try and nip them in the bud, lest they become exaggerated out of all proportion.

During this period, your imagination can be enhanced, but your powers of logic can also be weakened. If you are usually a disciplined person, particularly in regard to your working habits, you may find this period quite unsettling, because this transit can undermine your ability to organize your thinking. You will be more inclined to daydreaming or fantasizing now and less inclined to constructive and productive output. Your judgment is less reliable than usual, so this is not the best time to make really important decisions - such as are required in career choices, relationship matters or business negotiations. There is a risk of misunderstandings, miscommunications, confused ideas and deceit, in any or all of the aforementioned areas. Where possible, avoid doing business in areas you don't have much experience, because you could be swindled, or you could inadvertently deceive others. If your work normally entails a lot of negotiation and contract signing, make sure you read the fine print carefully, or get a second opinion from someone you trust. You will most likely feel more tired and lethargic than normal during this period and will probably have to battle procrastination. Positively, this transit favors creative and spiritually inclined people. Your powers of perception, inspiration and imagination are accentuated now. Creative writing, music and the visual arts can all flourish under this influence.

Apart from the possible influence of another on your thinking, your mind is going to be independently progressive and original, possibly even a bit wayward. The way you are thinking now is likely to challenge the views and opinions of conservative thinkers. In your profession, you will seek to introduce reforms and innovations, and if your current job can no longer provide the stimulus you need, you will probably start looking for different work. The pace of your life will accelerate during this period. So, in the midst of all this excitement, try to give yourself occasional periods of quietness to still your mind, else you could risk burnout. There is a danger of nervous exhaustion or absent-mindedness caused through having too many things on the go at the same time.

This is one of Saturn's most important transits, because it coincides with a new cycle of growth and self-development in your life. You will not be concerned with light and trivial things at the moment. Instead, you will be thinking about making new starts and long-term plans. However, don't beat yourself up if you're not entirely sure about where you're supposed to be going; things will become clear enough in time. One thing is certain, the past can be left behind, so tidy up any loose ends and start thinking about the future. Regarding your relationships with other people, take care that you don't inadvertently segregate or cut yourself off from others. Some contacts will be terminated at this time, but don't see this as a bad thing; in all likelihood they have come to the end of their purpose in your life. The environment may not be everything you'd like it to be; it may seem harsh or unsympathetic. Often people move during this transit. Physically, you may notice that you start to lose weight.
