

## **Aries Yearly Horoscope**

I would like to give you an important clue at the beginning of this prediction: Your sign ruler, Mars, is currently residing in your sign on the very first day of the season, which will be very favorable for you in general. Stability and many expressions along with your near and dear ones will be signaled on your house front, which could give you security and boost your confidence. Don't expect any significant changes in your life during this period, as your life house god Saturn is likely to remain in conjunction with debilitated Jupiter until April 6. In the June July month of the calendar year, professionals are advised not to take on any significant dangers without thinking about the pros and cons. Nevertheless, you can be blessed with valuable assignments in the second half of this calendar year. It is advisable that you make full-fledged plans before making any investments. Expect delays in payments from the middle of the year. Stay away from ideas of making money by unethical means.

**Enjoyment, Relationship/Family** - As mentioned earlier, there will be some ups and downs in terms of your love life and household as Rahu is in the second house of the household. It is advisable that you work out your important future strategies wisely and rationally. When you meet new people, you should not rush to enter into an intimate relationship with them.

**Teaching -- As far as studies are concerned**, Mars' position in your first house can cause distractions in your research. It is advisable to focus on your goals and work hard to achieve them. Your sharp intellectual abilities can lead you to great achievements. As Rahu is powerful there in the sign Taurus, you may face lack of concentration and distraction of thoughts, feelings of guilt etc.

**Career --** As far as livelihood is concerned, the setup of debilitated Jupiter and Saturn in your tenth house of qualified livelihood could create a status quo position for you. You are advised to avoid more self-confidence. Your leadership qualities can enable you to guide your group mates properly. The mutual facet of Jupiter and Rahu may provide you sudden opportunities beyond your own expectations.

**Health --** In terms of health is concerned, the facet of Rahu on your house may cause some worries like lethargy, mental tension, fatigue etc. Avoid any kind of carelessness and try to be really disciplined in following and sticking to your daily routine.
